Price: **387.87 zł** gross / 315.34 zł net

Manufacturer: UBIQUITI

Referention number: DNXEJNODRMLPN

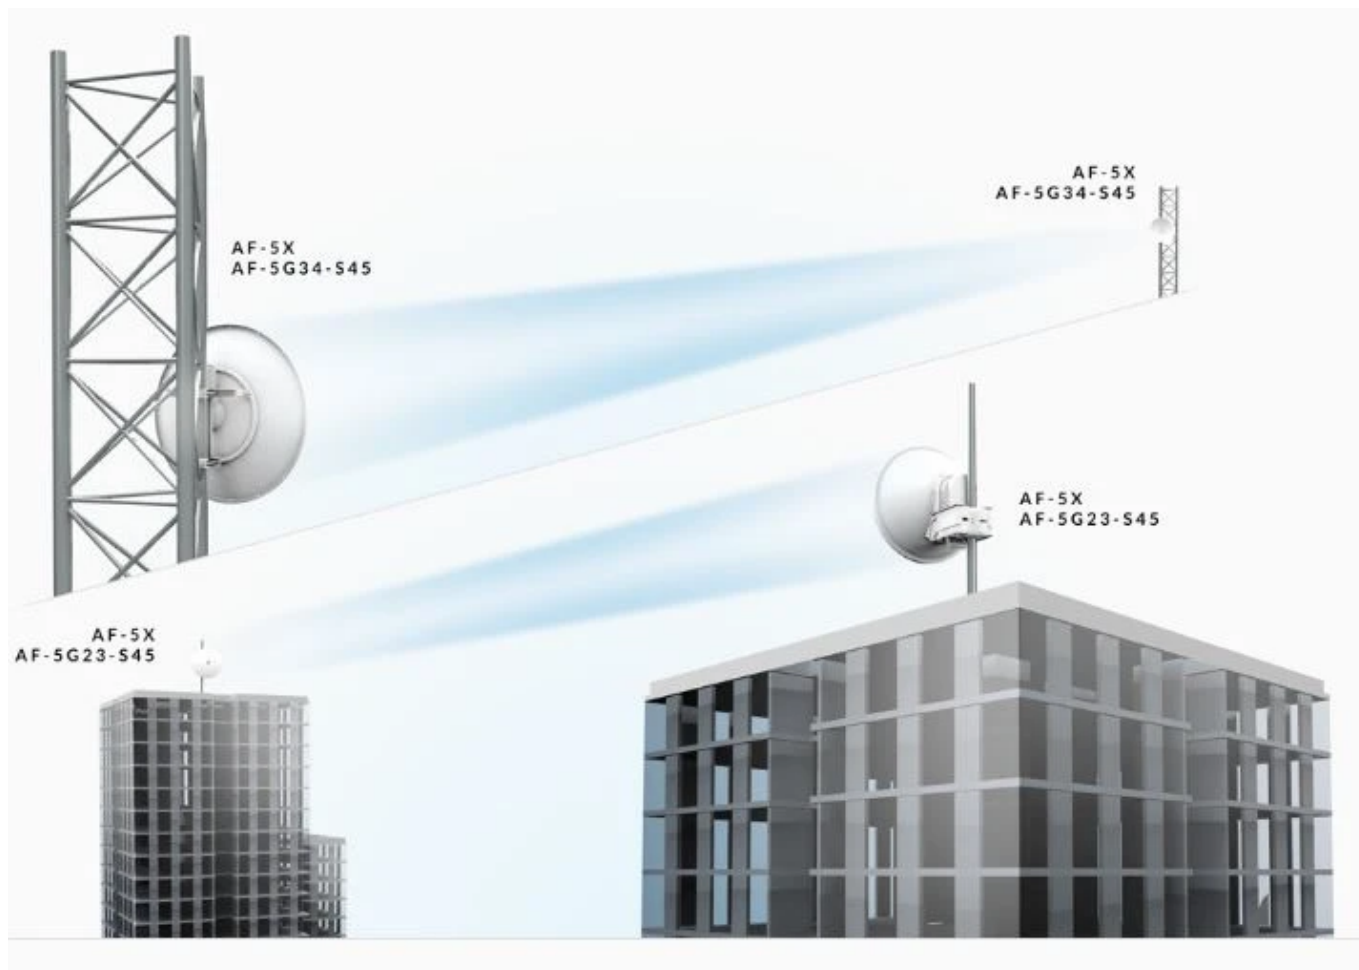

Product features

Height	378 mm
Width	378 mm
Depth	290 mm
Harmonized System (HS) code	85177100
Antenna gain level (max)	23 gain
Frequency band	5 GHz
Product colour	White
Product weight	3400 g

Full product description

Compact size for flexible deployment

The **airFiber X** device together with the airFiber X antenna can be used as a high quality **endpoint**, **point to point bridge** (PtP) or **network backhaul**. AirFiber X supports an oblique polarity of $\pm 45^\circ$ to increase noise immunity and use of SNR. Its compact design allows airFiber X to be mounted on Ubiquiti antenna without the need for additional tools.

Plug and Play function

AirFiber X antennas are designed to work seamlessly with airFiber X radio equipment.

Advanced radio signal isolation

Innovative **design improves signal isolation**, significantly reducing interference and providing excellent gain for **multi-point networks** with high throughput. The device operates in 5GHz frequency band and with 23dBi gain. The radiation characteristics guarantee the highest possible signal-to-noise ratio (SNR) and high resistance to interference from other devices. The airFiber antenna has been designed to provide high efficiency and reliable connection.
