Full product description

airFiber 60 GHz/5 GHz 1+ Gbps radio system

airFiber AF60 is a **60 GHz** radio system providing low interference and high bandwidth communications. It is integrated with a high gain dish antenna for long range and high performance. For a 60 GHz link, the AF60 supports **two channel width options: 2 GHz and 1 GHz** - automatically switching between both options depending on link performance.

Key features of the airFiber AF60

- 60 GHz band with little interference
- 60 GHz radio with 5 GHz backup radio signal
- Long range, up to 2 km
- Up to 1 Gb/s throughput with low latency
- Integrated GPS
