Full product description

A 60 GHz multi-gigabit bridge with SFP support and a link range of 2 km.

The **airFiber 60 HD (AF60 HD)** is a **60 GHz** radio designed to create superior point-to-point (PtP) links with an average **range of up to 2 km**. The AF60 HD delivers 60 GHz bandwidth with low interference and low latency.

Compact and highly rugged, the AF60 HD also features **integrated GPS and Bluetooth management radio** to simplify setup and monitoring. This bridge is ideal for ISPs looking to maximize signal bonding with cost-effective equipment.

What distinguishes this device from Ubiquiti?

- Low interference in the **60 GHz**band
- Link range of **up to 2 km**
- Supports channel bonding for **up to 6 Gbps throughput**
- (1) **10G SFP** port
- Terragraph certified
- Integrated **GPS**
- Support for link planning with ISP Design Center
- **Simple Bluetoothconfiguration** using the UISP™ Mobile app
