Price: **300.38 zł** gross / 244.21 zł net

Manufacturer: UBIQUITI

Referention number: DNXHJISKDPM

Product features

Regulatory Approvals	EN 302 326 DN2
Height	41 mm
Antenna type	Sector antenna
Width	367 mm
Depth	63 mm
Harmonized System (HS) code	85177100
Antenna gain level (max)	16 gain
Frequency band	5 GHz
Mounting	Wall
Product colour	White
Voltage Standing Wave Ratio (VSWR)	1.5:1
Horizontal beam width (5 GHz)	8 °
Vertical beam width (5 GHz)	4 °
Horizontal beam width	137 °
Vertical beam width	118 °
Polarization	Dual polarization
Product weight	1100 g

Full product description

Reduced interference, higher gain

Ubiquiti's **airMAX** sector antenna is a high-end device, perfect for designing complex network architecture. Thanks to the use of modern

technology, airMAX 5G16-120 sector antennas achieve **optimal beam shape**. Ubiquiti sector antennas provide efficiency and high energy gains.

Plug and Play function

Ubiquiti airMAX 5G16-120 sector antenna with dual polarity **2x2 MIMO** is a functional device, which uses innovative technological solutions. AirMAX 5G16-120 was designed to integrate seamlessly with RocketM radio (RocketM is sold separately). The pair of devices, RocketM together with the sector antenna airMAX creates a powerful base station.

Rugged construction

Ubiquiti ensures **high quality** and solid performance of its products. Durable antenna housings and waterproof connectors ensure long and satisfactory use. Sector antennas of the airMAX 5G16-120 line, thanks to high technical parameters, allow for great flexibility and **convenience during network design**. We encourage you to read the detailed specification of Ubiquiti sector antennas airMAX 5G16-120.
