Full product description

Reduction of interference and higher gain

Ubiquiti's **airMAX** sector antenna is a high-end device, perfectly suited for **designing complex network architecture**. Thanks to the use of modern technology, the airMAX 5G19-120 sector antennas allow to achieve **optimal beam shape**. Ubiquiti sector antennas provide efficiency

and **high energy gains**.

Robust construction

Ubiquiti airMAX 5G19-120 sector antenna with dual polarity **2x2 MIMO**, is a functional device, which uses innovative technological solutions. AirMAX 5G19-120 was designed to enable its seamless integration with RocketM radio (RocketM is sold separately). The pair of devices, RocketM together with the sector antenna airMAX **creates a powerful base station**.

Easy plug and play installation

Ubiquiti ensures high quality and solid performance of its products. **Durable antenna casing** and **waterproof connectors**, ensure long and satisfactory use. Sector antennas of the airMAX 5G19-120 line, thanks to their high technical parameters, allow great flexibility and **convenience during network design**. We encourage you to read the detailed specification of Ubiquiti's airMAX 5G-19-120 sector antennas.
