Price: **647.42 zł** gross / 526.36 zł net

Manufacturer: UBIQUITI

Referention number: DNXLEJSKDOT

Product features

Regulatory Approvals	EN 302 326 DN2
Height	84 mm
Antenna type	Sector antenna
Width	1030 mm
Depth	122 mm
Harmonized System (HS) code	85177100
Antenna gain level (max)	10 gain
Mounting	Wall
Product colour	White
Voltage Standing Wave Ratio (VSWR)	1.7:1
Horizontal beam width (2.4 GHz)	12
Vertical beam width (2.4 GHz)	4
Polarization	Dual polarization
Designation	Outdoor
Product weight	2100 g

Full product description

Breakthrough 2x2 bipolar design

AirMax Omni is an omnidirectional antenna with vertical and horizontal dual polarization with **10dBi** gain, designed for the **2.4GHz** band. The antenna is designed to integrate seamlessly with RocketM radio, with which it can create a powerful omnidirectional base station with **360°** coverage while maintaining high network performance. Omnidirectional antenna Ubiquiti airMAX OMNI AMO-2G10, thanks to its omnidirectional radiation characteristics allows to build a **very efficient and relatively cheap base station**.

Powerful coverage in all directions

The AMO-2G10 antenna is characterized by signal emission in all directions with the same power. The product is also distinguished by its operation in the frequency band **2.4GHz** and maximum gain level **10dBi**.

Robust construction

AirMAX antennas are designed for mechanical construction for **outside applications**.

Plug and Play integration

Each airMAX antenna has a built-in Rocket holder, so no tools are needed to install the Rocket BaseStation.
