Price: **9,057.87 zł** gross / 7,364.12 zł net

Manufacturer: UBIQUITI

Referention number: DNXXGGOIJKRMMJI

Information:

Ubiquiti Enterprise Fortress Gateway (EFG) is a high-performance enterprise-class router designed for large businesses and professional networks. Equipped with an 18-core ARM v8.2 2 GHz processor, 16 GB RAM and 2x SFP28 25G, 2x SFP+ 10G and 2x 2.5 GbE RJ45 ports, it delivers high throughput, configuration flexibility and reliable operation. It offers routing up to 23.5 Gbps and IDS/IPS up to 12.5 Gbps, supporting 500 UniFi devices and more than 5000 clients. Advanced security features include a stateful firewall, threat protection, content filtering and WireGuard, OpenVPN and IPsec VPN. Integration with UniFi enables centralised network management, while the 1.3" touchscreen makes monitoring easier. Hot-swappable CRPS 150W power supplies increase uptime.

Product features

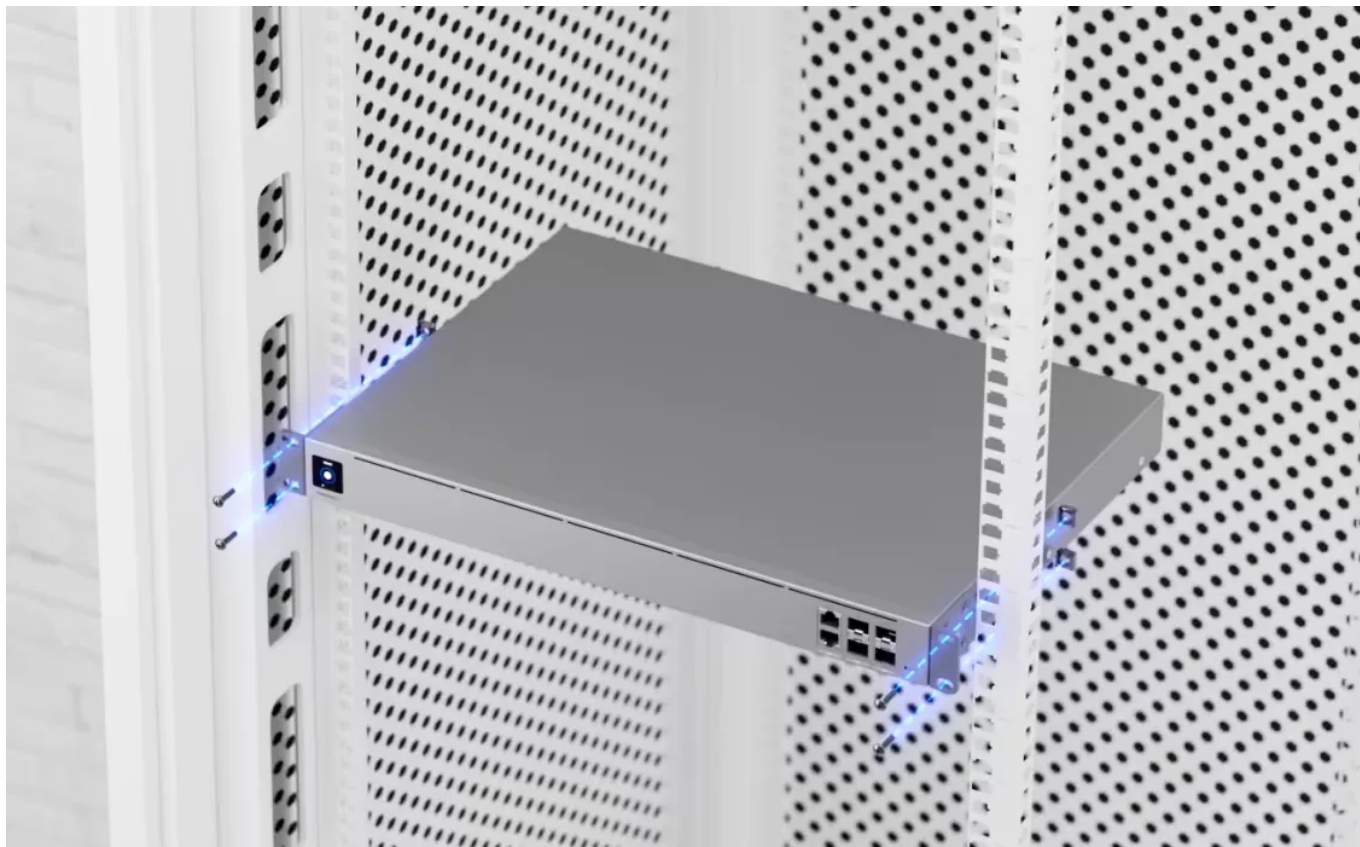

Height	43.7 mm
Input voltage	100 V
LED indicators	Activity
WAN connection	Ethernet (RJ-45)
Firewall security	Yes
Width	442.4 mm
Depth	325 mm
Input current	7 A
Cables included	AC
Compliance certificates	CE
Power consumption (max)	82 W
Sessions per second	71000
Firewall throughput	23500 Mb/s
Humidity measurement range	5 - 95%

Touchscreen	Yes
Ethernet LAN (RJ-45) ports	1
SFP+ ports quantity	2
Processor family	ARM Cortex
Input frequency	50 Hz
Operating temperature (T-T)	0 – 40 °C
Rack capacity	1U
Quality of Service (QoS) support	Yes
VLAN support	Yes
Reset button	Yes
Processor frequency	2000 MHz
Web-based management	Yes
Display diagonal	1.3 "
Internal memory	16000 MB
Display type	LCM
Processor manufacturer	ARM
Built-in processor	Yes
Product colour	Grey
Mounting hardware type	Rack mounting
DHCP server	Yes
Watch case material	Aluminium/SGCC
Control panel	Yes
Product weight	6500 g

Full product description

Ubiquiti EFG Enterprise Fortress Gateway - Advanced Router for Professional Networks.

Meet **the Ubiquiti Enterprise Fortress Gateway (EFG)**, an extremely powerful **router** that offers unlimited management and network optimization. With **2x SFP28, 2x SFP and 2x 2.5 GbE RJ45 ports**, the device provides superior throughput and configuration flexibility. **Ubiquiti EFG** is the ideal solution for large companies, institutions and professional users looking for reliability and security.

Unmatched performance and versatility

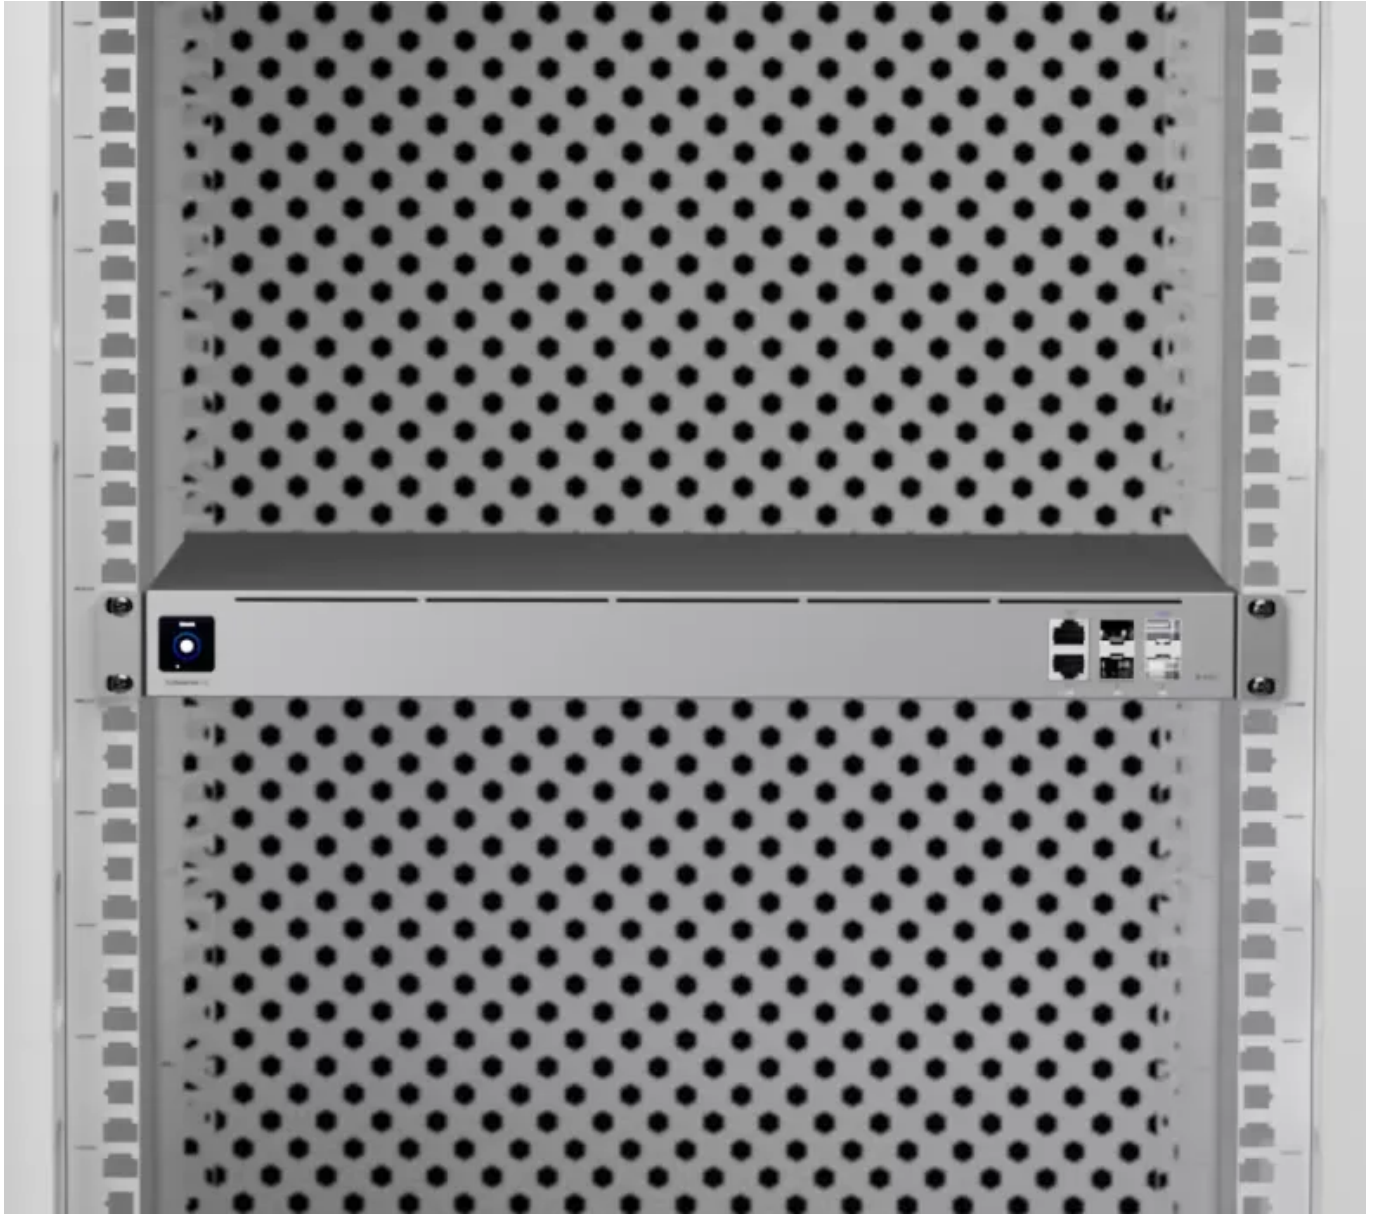

The Ubiquiti **Enterprise Fortress Gateway** features an **18-core ARM v8.2 2 GHz processor** and **16 GB of DDR4 memory** for lightning-fast processing. It supports **routing bandwidth of up to 23.5 Gbps** and **IDS/IPS of 12.5 Gbps**, making it suitable for the most demanding network environments. You can manage **500 UniFi devices** and support more than **5,000 clients**, making it an ideal choice for extended networks.

Advanced security features

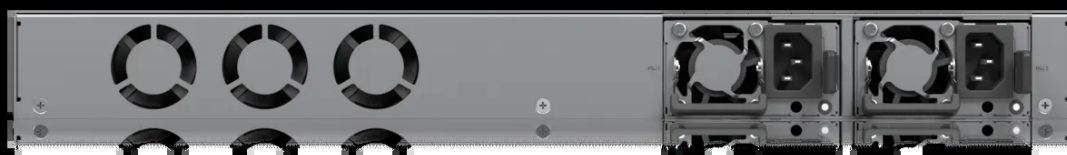

EFG offers a range of advanced security features such as a **stateful firewall**, **IPS/IDS with 80,000 threat signatures**, and content, domain

and ad filtering. With applications such as **WireGuard, OpenVPN and IPsec**, you can create secure VPN connections, providing **secure network access to remote users**. WAN redundancy with failover and load balancing increases network reliability.

Comprehensive network management with UniFi

The router integrates with the **UniFi** platform, allowing you to manage all devices on your network from a single application. With **LCM's 1.3-inch touchscreen display**, you can monitor key network data in real time. Manage applications, identify devices and analyze network traffic in real time.

Flexibility and scalability

With **2x SFP28 25G**, **2x SFP 10G** and **2x RJ45 2.5 GbE** ports , the **Ubiquiti EFG** adapts to your network needs. The ability to assign any two interfaces to the WAN allows for flexible configurations. **Hot-swappable 150W CRPS power supplies** guarantee continuous operation in the event of a single **power supply** failure, providing an extra layer of security.
