Full product description

Light Up Your World with Extralink Smartlife E27 A70

Light up your interior with **Extralink Smartlife E27 A70**, a modern **LED bulb that combines convenience, functionality and energy efficiency**. The ability to change the color of the light from warm to cool (2700K-6500K WiFi) will allow you to adjust the lighting to suit every moment and mood. With smart smartphone control features, your daily life will become easier and more comfortable.

Intelligent light control

Thanks to the WiFi module, you can control the bulb remotely via an app. Change the color of the light, turn it on and off without getting up from **your chair - all on your smartphone**. This is the perfect solution for those who value convenience and modernity in their home.

**Control the bulb from anywhere
using the app on your phone**

Adjustable light color (Light colors)

The Extralink Smartlife E27 A70 LED bulb offers a color range from **warm (2700K)**, which is ideal for evening, to **cool (6500K)**, perfect for work and concentration. This allows you to create the perfect mood in any room, from relaxation to full mobilization. Your interiors will gain in functionality and aesthetics.

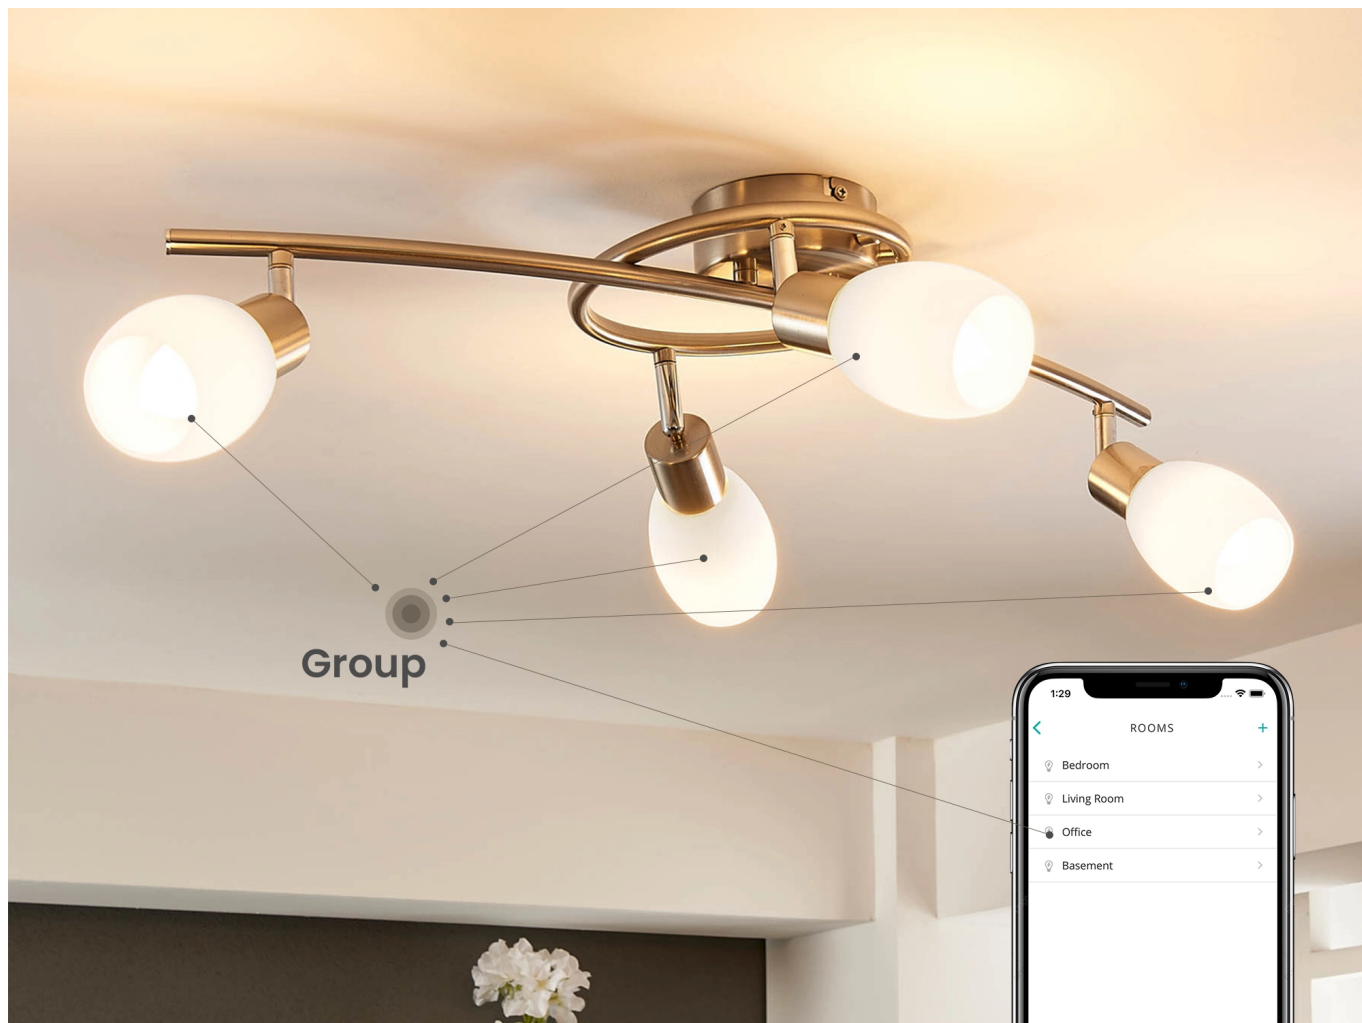

COLOUR & WHITE

Adjust the colour and
brightness of the bulb to
suit your needs

Energy efficiency and ecology

This bulb consumes only **11 kWh per 1,000 hours**, which can significantly reduce your electricity bill. Thanks to LED technology, its durability and efficiency are top notch. This is an environmentally and economically responsible choice that benefits you and the environment.

Grouping and controlling a group of bulbs

Versatility and high brightness

With a luminous flux of **1055 lm** and a standard **E27** thread, this bulb fits into most fixtures and provides excellent lighting for any room. It will work well in living rooms, kitchens, offices and even bathrooms, offering high light output.
