Full product description

Switch optimized for CIS deployments

Eight Gigabit RJ45 ports offer **24 V PoE** output, while **the two SFP** ports offer fiber optic connectivity.

Optimised energy consumption

The EdgeSwitch 10XP uses 50% less energy than the previous generation of EdgeSwitch XP, allowing for **passive cooling**.

Layer 2 switching capabilities

EdgeSwitch 10XP supports an extensive suite of advanced Layer 2 switching functions and protocols.

Versatile mounting options

EdgeSwitch 10XP can be mounted on a wall or in a rack.

Simple user interface

The new user interface is easy to learn and allows you to monitor and configure individual functions with an intuitive, graphical user interface.

Centralised management

EdgeSwitch 10XP is supported and managed by **UNMS™** - a versatile controller with an intuitive user interface. A single control plane manages registered EdgeMAX® devices in multiple locations.

Advanced features

- Monitoring of ports
- Virtual Local Area Network (VLAN)
- STP, MSTP and RSTP protocols
- Device detection tool
- Jumbo Frame
- DHCP Snooping
- Port isolation
- Ping Watchdog
