Full product description

Managed gigabit switch with SFP

The EdgeSwitch ES-24-250W is a 24-port switch. It has 24 gigabit RJ-45 ports, with 2 SFP ports. It is ideal for use in growing networks, providing robust performance and fast data transfer. EdgeSwitch® processes traffic on all ports simultaneously at line speed without packet loss. Total non-blocking throughput for 24-port models is up to **26 Gbps**.

Enterprise-class features

The EdgeSwitch series switches offer a rich set of advanced **layer 2** switching functions and protocols, as well as **layer 3** routing.

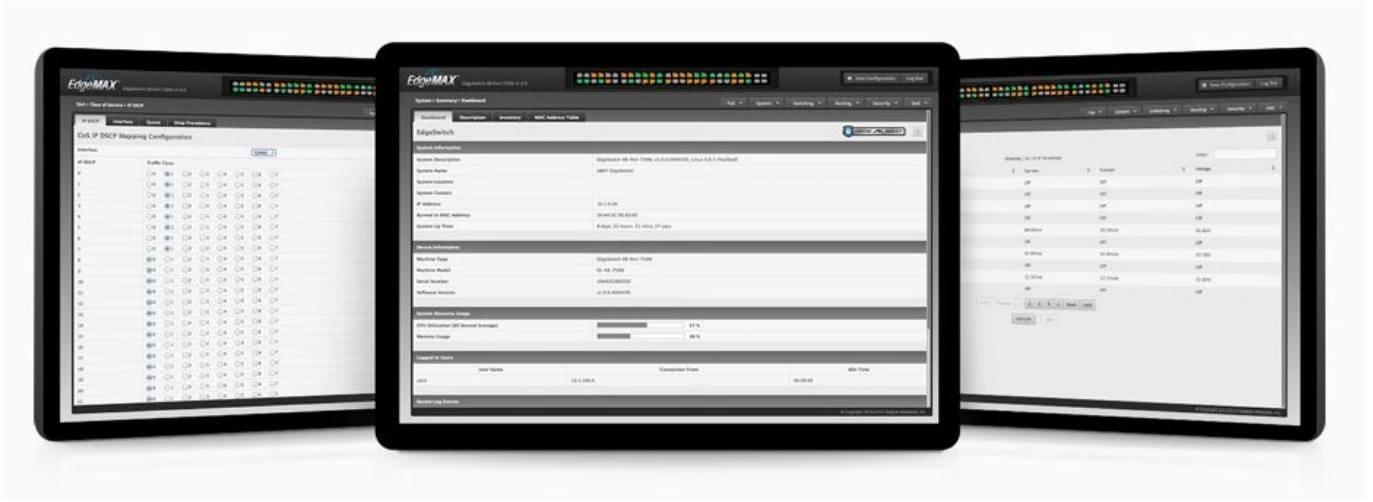

Fibre optic connection

The EdgeSwitch series has ports for fiber optic communication. The 24-port models are equipped with **two SFP** ports providing throughput up to **1 Gbps**.

Advanced user interface

EdgeSwitch is designed for convenient management, allowing administrators to configure and monitor switch functions in the graphical user interface. For advanced users, there is a standard **command line interface (CLI)**, available via the **console serial port, telnet** and **SSH**.

EdgeSwitch - functions

- MSTP/RSTP/STP
- VLAN, Private VLAN, Voice VLAN
- Link Aggregation
- DHCP Snooping, IGMP Snooping
- TACACS+, RADIUS, 802.1X, MAC Filtering, ACL DiffServ, CoS
- Static Routing
- DHCP server functionality
