Full product description

Manageable PoE+ Gigabit switch with SFP

EdgeSwitch® 8 is a fully manageable, powerful PoE+ Gigabit switch. It provides high performance and intelligent data transfer with **eight Gigabit Ethernet** ports that support **PoE+** and **two SFP** ports for optical connectivity. It can be placed on your desk or mounted on the wall. The **DC** input option is included for flexibility.

Convenient support for PoE+

Sharing a total of 150W, the eight Gigabit Ethernet ports offer automatic IEEE 802.3af/@ PoE/PoE+ or 24V passive PoE detection - a solution that was used to simplify the infrastructure.

Fibre optic backhaul cable

EdgeSwitch provides fiber optic connection options for growing networks. The two SFP ports provide links up to **1 Gbps**.

Powerful performance

EdgeSwitch provides robust data transfer performance with total, unblocked bandwidth up to **10 Gbps**.

Switching capacity

EdgeSwitch offers the ability to transfer data to process traffic on all ports simultaneously at linear speed, without losing packets.

Advanced user interface

The versatile user interface is easy to learn and allows administrators to configure and monitor functions in the graphical interface. For advanced users there is a **command line interface** (CLI), which is available via **telnet** and **SSH**.

Features:

- MSTP/RSTP/STP
- VLAN, Private VLAN, Voice VLAN
- Link Aggregation
- DHCP Snooping, IGMP Snooping
- TACACS+, RADIUS, 802.1X, MAC Filtering, ACL
- DiffServ, CoS
- Static Routing
- DHCP server functionality
