Price: **300.38 zł** gross / 244.21 zł net

Manufacturer: UBIQUITI

Referention number: DNXXGNPKGRMMKI

Product features

Antenna gain level (max)	13 gain
Product colour	White
Vertical beam width	90 °

Full product description

Modular construction

Insulation antennas are interchangeable and have a **high performance** for a number of demanding applications. In combination with the PrismStation 5AC or airFiber LTU, these antennas deliver superb co-location performance without sacrificing gain.

Asymmetric tube antennas

The 60° and 90° versions have naturally dampened side mouldings and have very low radiation. They offer the industry's best **front to back ratio**. Asymmetric tube antennas are ideal for installation in **cluster sectors** with high location requirements.
