Price: **77.70 zł** gross / 63.17 zł net

Manufacturer: UBIQUITI

Referention number: DNXLNLNERMMKM

### Product features

|                                   |                  |
|-----------------------------------|------------------|
| Height                            | 30.26 mm         |
| Input voltage                     | 48 V             |
| Width                             | 30.26 mm         |
| Depth                             | 95.5 mm          |
| Surge protection voltage          | Yes              |
| Surge protection voltage          | 15 kV            |
| Input current                     | 0.5 A            |
| Harmonized System (HS) code       | 85044095         |
| Networking standards              | IEEE 802.3af     |
| Ethernet LAN (RJ-45) ports        | 2                |
| Operating temperature (T-T)       | 0 - 70 °C        |
| Ethernet interface type           | Gigabit Ethernet |
| Output current                    | 0.5 A            |
| Power over Ethernet (PoE)         | Yes              |
| Power over Ethernet (PoE) voltage | 48 V             |
| RJ-45 output ports                | 1                |
| RJ-45 input ports                 | 1                |
| Product colour                    | White            |
| Product weight                    | 50 g             |

### Full product description

## Gigabit PoE converter

Instant 802.3af Gigabit PoE Converter allows you to convert almost any **Ubiquiti®** device powered via **PoE (Power over Ethernet)** into a fully compatible **802.3af** product. The device reduces the **802.3af (48V)** standard voltage to **24V (Passive PoE)**. This converter supports transmission speeds up to 1000 Mbps and is designed for indoor use.

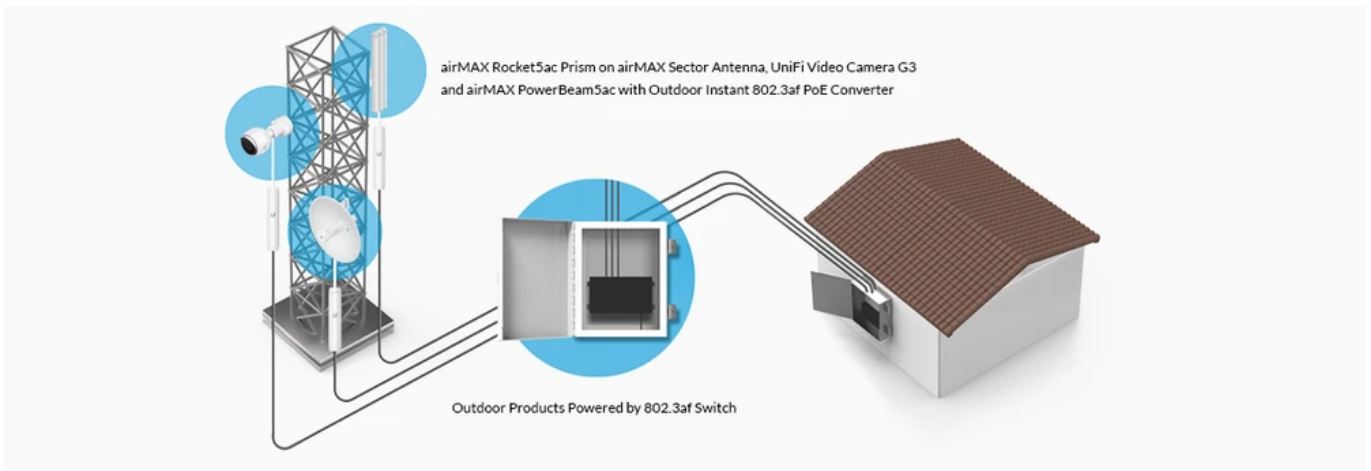

## ESD protection

The **Instant 802.3af** converter provides additional  $\pm 15\text{kV}$  Ethernet isolation to reduce the risk of damage by **ESDs** or overvoltage of connected devices.

## Longer cable connections

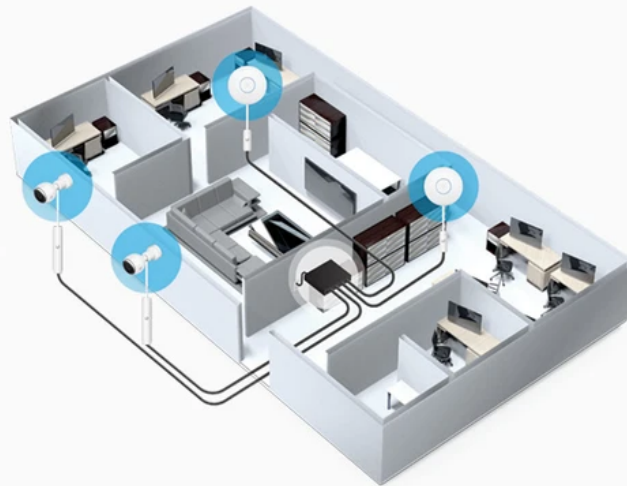

High voltage carries electricity more efficiently than low voltage because it uses less power. The Instant 802.3af PoE Gigabit Converter allows longer cable connections due to a more efficient power supply. This allows your devices to be powered even if they are far from the 802.3af switch.

## Compatibility

**Instant 802.3af Gigabit PoE Converter** integrates seamlessly with multiple 802.3af auto detection PoE switches for remote power control. By managing and monitoring your network, you can conveniently supply power to your devices remotely using the 802.3af switch.
