### Full product description

### Light up your life with Extralink Smartlife

Meet Extralink Smartlife | **E14 C37 2700-6500K WiFi 220-240V LED bulb** - the perfect solution for any room. It offers light color adjustment and smart control, providing convenience, savings and modern design. This product is a **combination of functionality and technology** that will allow you to control your lighting with your smartphone - simply and effortlessly.

## Light control at your fingertips

Thanks to the built-in **WiFi** module, you can manage the lighting from anywhere. Changing the color of the light (from **warm 2700K** to **cool 6500K**) and turning the light on and off is done in one app. This is an ideal solution that gives you full control over the lighting of your home.

**Control the bulb from anywhere  
using the app on your phone**

### **Versatility and compact design**

This **E14 C37 LED bulb** fits most standard fixtures, making it extremely versatile. Thanks to its compact size and elegant candle shape, it will work well in both table lamps and chandeliers. **The product** perfectly combines modern design with functionality.

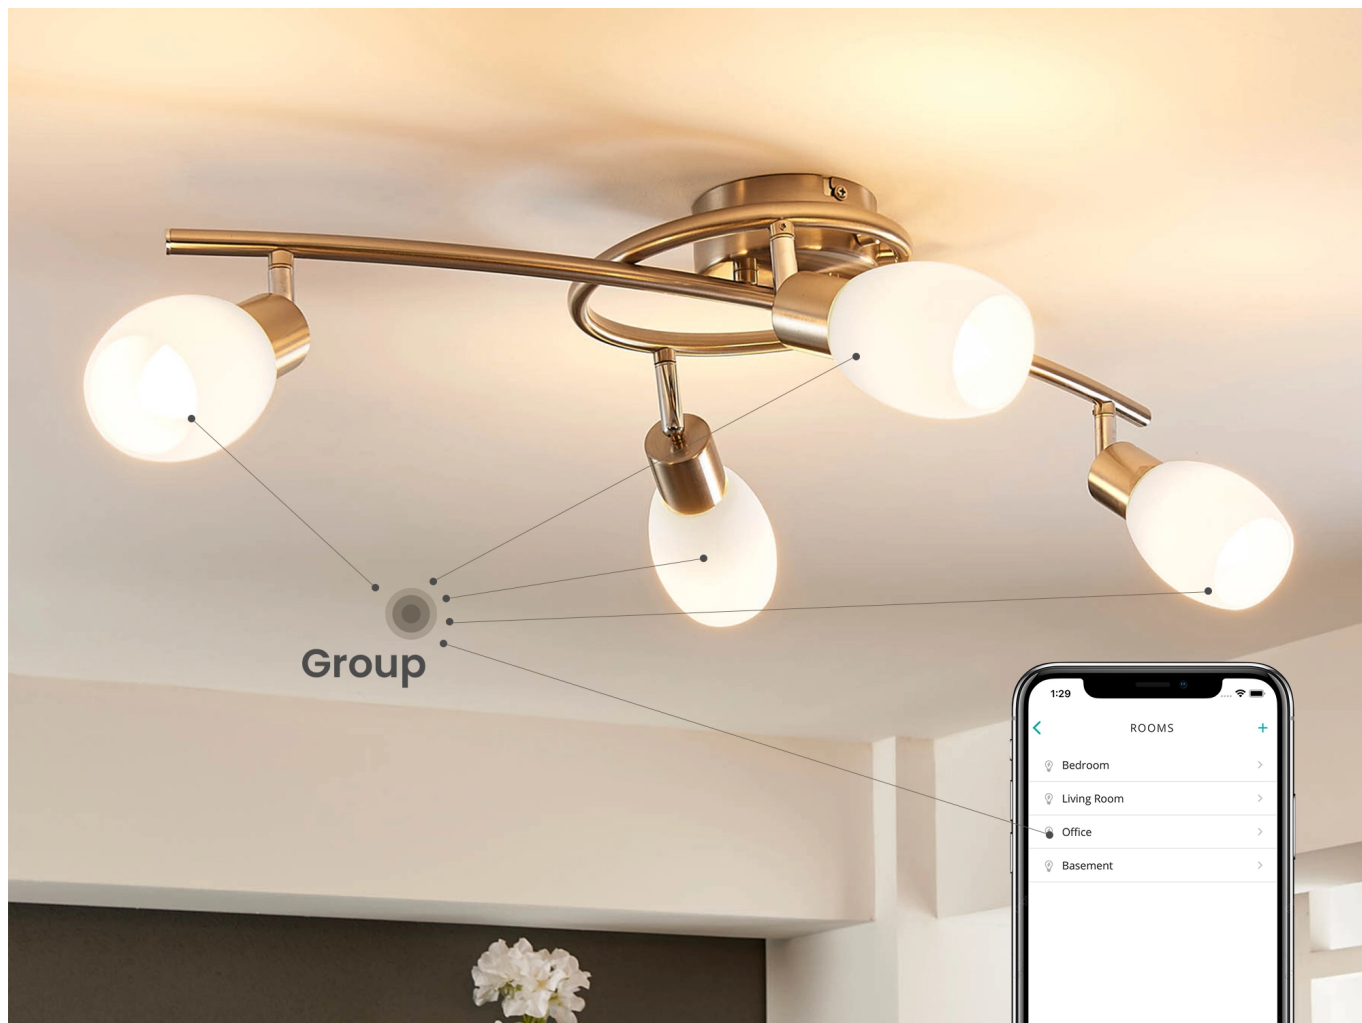

# COLOUR & WHITE

Adjust the colour and brightness of the bulb to suit your needs

## Ecology and energy savings

Only **5 kWh per 1000 hours** - that's how much energy this bulb uses. Thanks to its low power consumption and durability, you save money and take care of the environment. This is the **LED bulb** that lets you be eco and enjoy long-lasting light.

# Grouping and controlling a group of bulbs

## Light color adjustment and high quality

The **Extralink Smartlife E14 C37 LED bulb** allows you to smoothly change the color of light from **warm (2700K) to cool (6500K)**, making it an ideal choice for a variety of applications - from relaxation to work. With a color rendering index of CRI 80, the colors in your environment will look natural and clear. The excellent quality of light makes your **home** a place of comfort and style.
