Full product description

EXTRALINK SONIA 6 CORE - fiber optic box

EXTRALINK SONIA 6 CORE serves as an end point of the power cable that connects to the drop cable in the FTTx communication network system. The fiber optic box can be used for dividing, distributing and connecting fibres. It also provides solid protection and gives the possibility to manage the FTTx network building.

Features:

- Fully enclosed structure
- Material: PC+ABS, waterproof, dustproof, ageing resistant, protection class up to IP65

- Power cord and drop cable mounting, fiber linking, mounting, storage and distribution in one
- Cables, pigtails, crossover cables run on their own path
- Installation of the SC-type adapter
- Easy maintenance
- The control panel can be inverted and the power cable is articulated
