Price: **828.68 zł** gross / 673.72 zł net

Manufacturer: UBIQUITI

Referention number: DNXXGJMRHRMMMN

Product features

Cable shielding	U/UTP (UTP)
AWG wire size	23
Oven input frequency	600 MHz
Harmonized System (HS) code	84733080
Cable length	305 m
Product colour	White
Connector shielding	Yes
Cable standard	Cat6

Full product description

Category 6 Ethernet cable for high-speed indoor deployments

U-Cable-C6-CMR is a **Category 6 UTP** cable that supports speeds of **up to 1 Gbps** thanks to its **23 AWG** stranded copper wire. The small conductor diameter combined with the cable's anti-interference divider isolates and protects signals from interference. The **U-Cable-C6** cable is also a **fire-rated** CMR cable that provides safe operation over multiple floors and vertical shafts. Category 6 Ethernet connectors are recommended to accommodate cable size and optimize performance.

Key features of UniFi Indoor Cable CMR

- Category 6 Unshielded Twisted Pair (UTP) cable
- Universal communication cable, fireproof jacket
- length 1000 feet (305 m)
- 23 AWG solid copper, twisted pair cable
- Anti-crosstalk divider
- For 1000BASE-T Ethernet applications

CMR Wiring

CMR (Communications Multipurpose Cable, Riser) cabling is fireproof and can be run vertically between floors in non-compensating areas. **U-Cable-C6-CMR** has a new CMR class (also called vertical), making it suitable for wall and other vertical applications.
