Product features

Wall mountable	No
Suitable for outdoor use	Yes
Suitable for indoor use	No
Number of fibres supported (max)	48
Number of splice trays supported (max)	4
Mast mountable	Yes
Product colour	Black
Watch case material	Polycarbonate (PC)

Full product description

OUTER MUFF FTTX SUSAN 4 TRAYS 48 WELD / FIBRE

The **Extralink Susan** coupler is an irreplaceable equipment used to connect optical fibre cables. It provides protection against the influence of moisture on fiber optic fibers so it can be installed in underground cable ducts, cable trays and overhead solutions.

The included fiber optic trays give the possibility of laying 24 splice guards. The mounting brackets ensure that the cable is securely gripped, while preventing it from slipping out.

The coupler is designed for mounting on poles or in cable trays. Four chokes allow for the insertion of fiber optic bus cables while ensuring adequate tightness.
