Full product description

Invest in network reliability and quality with the Ubiquiti U-Cable-Patch-RJ45-BK-50.

This set of high quality Category 6, 0.1m copper cables is designed to provide maximum performance and stability for network connections. Ideal for indoor applications, this cable combines durability, flexibility and convenience.

High quality network connections

Category 6 provides **exceptional performance and connection stability**, enabling high-speed data transfer, which is ideal for demanding network applications. As a result, you can enjoy smooth streaming, fast downloads and reliable network communication.

Increased durability and flexibility

The Ubiquiti U-Cable-Patch-RJ45-BK-50 cable features a **flexible, shielded RJ45 connector** that protects against mechanical damage and wear, ensuring the longevity of the product. In addition, the cable's 3mm diameter sheath provides **flexibility** for **easy routing and installation** even in hard-to-reach areas.

Practical set of 50 pieces

The set of 50 cables, each 0.1 meters long, is the perfect solution for companies that need a large number of short network connections to their devices. The black color allows for easy cable management and organization of network infrastructure, helping to keep **server racks** and other installation areas **tidy**.
