Price: **3,872.14 zł** gross / 3,148.08 zł net

Manufacturer: UBIQUITI

Referention number: DNXXGHHMOMRMMOH

Information:

Ubiquiti U7-Pro-5 is a high-performance Wi-Fi 7 access point with support for the 6 GHz band, providing very fast and stable connections at home, in the office or in a larger space of up to 140 m². It offers throughput of up to 9.3 Gb/s, a 2.5 Gb Ethernet port and PoE+ power supply, which makes installation easier and increases deployment flexibility. The device supports more than 300 devices simultaneously thanks to MIMO and MU-MIMO technology, making it suitable for 4K streaming, online gaming and working with large files. Network management is made easier by UniFi Network Controller, and wall or ceiling mounting allows the installation to be adapted to your needs.

Product features

Height	46 mm
Antenna type	Internal
LED indicators	Yes
Width	206 mm
Depth	206 mm
Security algorithms	PPSK
Mounting kit	Yes
Compliance certificates	CE
Maximum data transfer rate	5700 Mb/s
Power consumption (max)	21 W
Rate limiting	Yes
Humidity measurement range	5 - 95%
Networking standards	IEEE 802.11a
Ethernet LAN (RJ-45) ports	1
Antenna gain level (max)	5.8 gain

DC voltage range	44 V
Operating temperature (T-T)	-30 - 40 °C
Quality of Service (QoS) support	Yes
VLAN support	Yes
Reset button	Yes
Power over Ethernet (PoE)	No
MIMO type	Multi User MIMO
MIMO	Yes
Placement	Ceiling
Product colour	White
Spatial streams	6
Maximum data transfer rate (5 GHz)	4300 Mb/s
Maximum data transfer rate (6 GHz)	5700 Mb/s
Maximum data transfer rate (2.4 GHz)	688
Watch case material	Metal
6 GHz	Yes
5 GHz	Yes
2.4 GHz	Yes
Product weight	680 g

Full product description

Take your performance to the next level

The Ubiquiti U7-Pro-5 is an access point that will revolutionize your Wi-Fi network. With state-of-the-art **Wi-Fi Standard 7** and support for the **6 GHz band**, you can enjoy super-fast internet that will stand up to even the most demanding devices. Ideal for an office or home **up to 140 sq. ft.** in size, the U7-Pro provides stable and fast connections for all your devices - without compromise

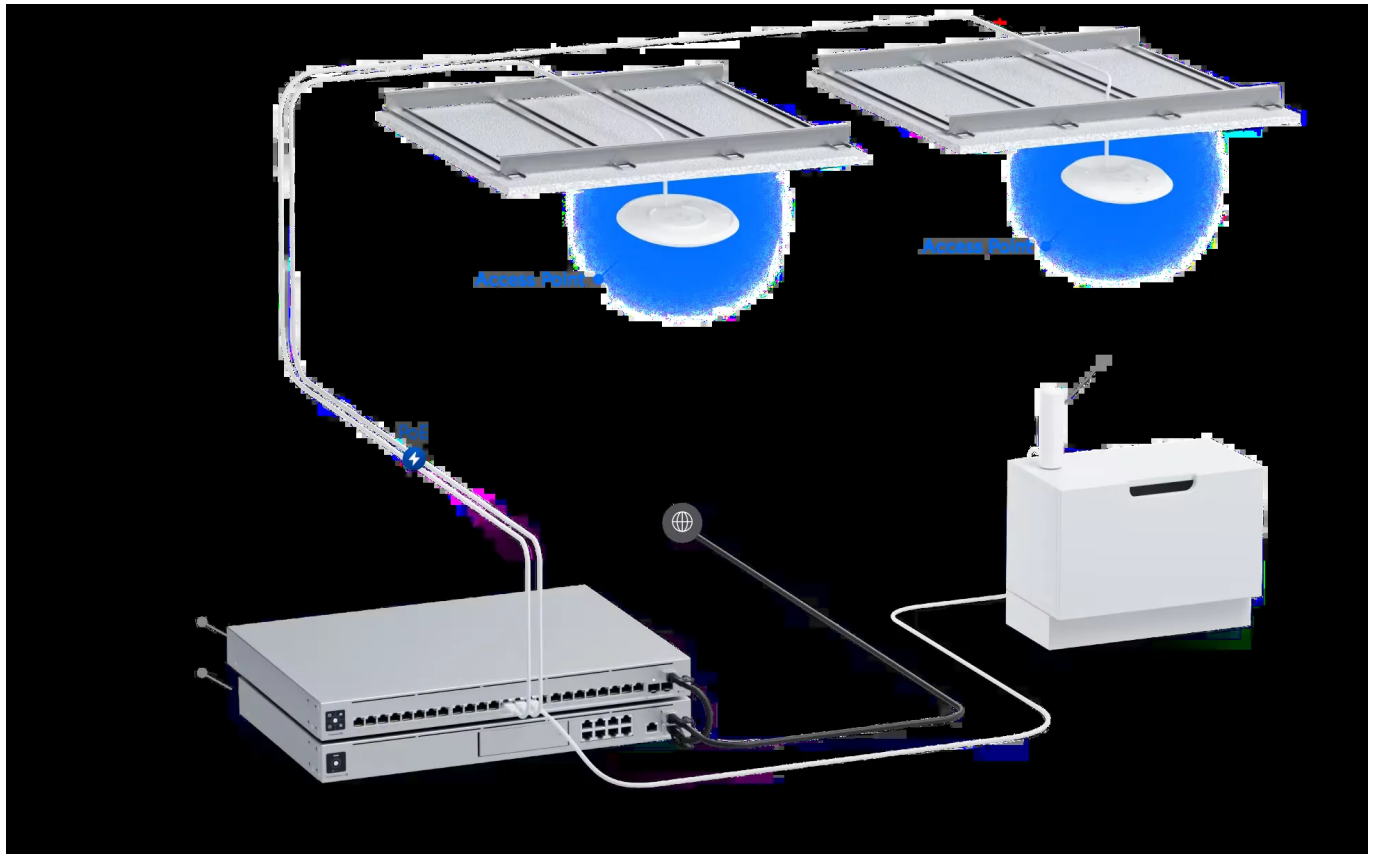

Wi-Fi 7 and 6 GHz band - The speed you're looking for

The **Ubiquiti U7-Pro** is an access point with support for the latest **Wi-Fi 7** (802.11be) standard, offering a maximum throughput of **up to 9.3 Gbps**. With support for the **6 GHz band** for less interference and higher performance, you can count on extremely fast connections. Ideal for transferring large files, streaming in 4K, online gaming and other demanding applications.

PoE and Ethernet 2.5Gb power supply - Convenience and speed

Powering the device via PoE (Power over Ethernet) makes **installation of** the Ubiquiti U7-Pro **fast and convenient** - you don't have to worry about additional power cables. **The 2.5Gb Ethernet port** provides super-fast data transmission, ideal for connecting to devices requiring high bandwidth. These features make the device more flexible and better suited to different user needs.

Scalability and reliability - Supports up to 300 devices

The Ubiquiti U7-Pro delivers exceptional performance, supporting **up to 300 devices** simultaneously without sacrificing connection quality. Thanks to its advanced **MIMO** technology and **MU-MIMO** support, you can freely use the network even when many people are connected at the same time. It's ideal for offices, large apartments or commercial spaces.

Advanced management - UniFi Network Controller

With **UniFi Network Controller** software, managing your network has never been easier. The Ubiquiti U7-Pro offers full control over your network, allowing you to easily monitor performance, manage devices and optimize settings. You can configure different access zones, set priority for important applications and take care of security with advanced **QoS** and **VLAN** options.

Versatile installation - Wall or ceiling mounting

The Ubiquiti U7-Pro is an access point designed for great mounting flexibility. It can be installed both on **the wall** and on the **ceiling**, providing wide coverage and optimal signal distribution. Thanks to its high-quality, high-gain **antennas**, it provides excellent signal quality throughout the area, making it ideal for offices, conference rooms or extended homes.
