Price: **882.18 zł** gross / 717.22 zł net

Manufacturer: UBIQUITI

Referention number: DNXXGNHJERMLML

Information:

Ubiquiti U7 Pro Wall is a modern wall-mounted Wi-Fi 7 access point, delivering exceptional speed, stability and performance at home, in the office and in larger spaces. Support for three bands and throughput of up to 5.7 Gb/s in the 6 GHz band guarantees smooth streaming, fast downloads and comfortable use of multiple devices at the same time thanks to MU-MIMO and Multi-Link Operation. Network security is enhanced by WPA3 and guest isolation, while central management via UniFi OS makes control easier. The compact aluminium enclosure, simple wall mounting and PoE+ power supply make installation quick and neat.

Product features

Height	36 mm
Antenna type	Internal
LED indicators	Yes
Width	103 mm
Depth	150 mm
Security algorithms	PPSK
Mounting kit	Yes
Compliance certificates	CE
Maximum data transfer rate	5700 Mb/s
Power consumption (max)	22 W
Rate limiting	Yes
Humidity measurement range	5 - 95%
Networking standards	IEEE 802.11a
Ethernet LAN (RJ-45) ports	1
Antenna gain level (max)	6 gain

DC voltage range	44 V
Operating temperature (T-T)	-30 - 60 °C
Quality of Service (QoS) support	Yes
VLAN support	Yes
Reset button	Yes
Ethernet LAN data rates	2500 Mb/s
Power over Ethernet (PoE)	Yes
MIMO type	Multi User MIMO
MIMO	Yes
Placement	Wall
Product colour	White
Spatial streams	6
Throughput data rate	5764 Mb/s
Watch case material	Aluminium
Recommended usage	Indoor
6 GHz	Yes
5 GHz	Yes
2.4 GHz	Yes
Sustainability compliance	Yes
Product weight	580 g

Full product description

Meet the revolutionary Ubiquiti U7 Pro Wall access point - a device that will revolutionize your wireless network.

With support for the latest Wi-Fi 7 standard and three frequency bands, this wall-mounted access point provides unparalleled speed and stable connections. Designed with the most demanding users in mind, the Ubiquiti U7 Pro Wall is the perfect solution for offices, homes and large spaces.

Unmatched throughput and speed

The Ubiquiti U7 Pro Wall supports data rates of up to 5.7 Gbps in the 6 GHz band for **smooth streaming and fast downloads**. With 802.11be (Wi-Fi 7) and MU-MIMO technology, you can enjoy simultaneous, seamless access from multiple devices. This ensures that your Internet access is always fast and reliable, regardless of the number of connected devices.

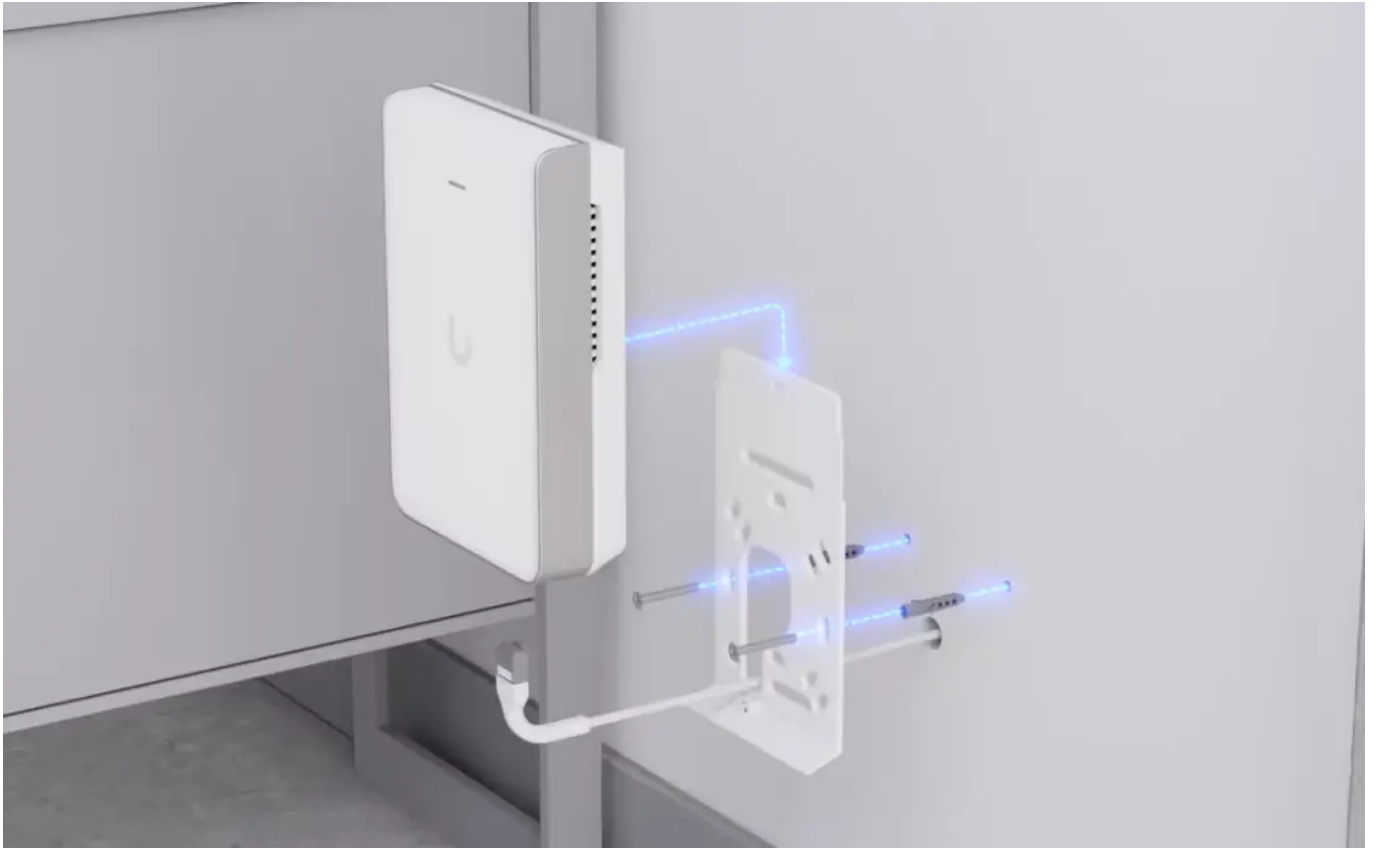

Advanced security features

The Ubiquiti U7 Pro Wall access point offers advanced security features, including WPA3 and guest traffic isolation. This ensures that your network is **always protected from unauthorized access**, which is crucial in today's digital world. In addition, the UniFi OS software allows you to centrally manage and monitor your network, giving you full control over all aspects of its operation.

Ease of installation and use

The U7 Pro Wall is designed for simple wall mounting, allowing the device to be quickly and aesthetically installed anywhere. The aluminum housing ensures durability, and the compact size makes the access point almost invisible. **Power supply via PoE** eliminates the need for additional power cables, making **installation and maintenance easy**.

Support for the latest technologies

Support for the latest Wi-Fi standards, such as 802.11be (Wi-Fi 7), and advanced technologies like **Multi-Link Operation** ensure **exceptional performance and reliability**. As a result, your network is ready for the future, supporting the latest devices and applications. The Ubiquiti U7 Pro Wall access point is the ideal solution for users who require the highest quality wireless connections.
