Full product description

Ubiquiti UA-Button is a reliable access control solution for any smart home or office

Designed to work with the UniFi Access Hub, this solidly constructed door opener button offers users convenience and security of the highest level. Thanks to its durability and ease of installation, the UA-Button is an essential part of any modern access management system.

Ease of integration with UniFi Access Hub system

The UA-Button is designed to be fully compatible with the UniFi Access Hub, which means **integration is quick and seamless**. With this device, you can easily manage door access with a central access control system. In addition, the button's operation and configuration are intuitive, allowing you to quickly connect and deploy it in your UniFi network environment.

High durability and reliability

The Ubiquiti UA-Button is designed for long-lasting use, offering a mechanical life of 1 million clicks. Thanks to its high resistance to varying environmental conditions, the button is able to operate reliably in a wide range of temperatures and humidity. It's **ideal for installation in a variety of locations**, whether in residential or business environments.

Aesthetics and workmanship

UA-Button is distinguished by its elegant and minimalist design, which blends perfectly with modern interior design. Made of durable materials such as polycarbonate and metal, the button not only looks good, but **is also resistant to mechanical damage**. By choosing this device, you are investing in a durable and aesthetically pleasing solution for your smart home.
