Price: **822.28 zł** gross / 668.52 zł net

Manufacturer: UBIQUITI

Referention number: DNXGFQQKFRMMLO

Product features

Height	32.9 mm
LED indicators	Yes
Width	174.9 mm
Depth	126 mm
Compliance certificates	CE
Power consumption (typical)	30 W
Interface	Ethernet
Humidity measurement range	5 - 90%
Ethernet LAN (RJ-45) ports	5
Exit request	Yes
DC voltage range	12 V
Operating temperature (T-T)	0 - 40 °C
Ethernet LAN	Yes
Product weight	363 g

Full product description

UniFi® Access Hub is an intelligent IP network door controller, part of the UniFi Access solution

The **UniFi Access Hub** is equipped with versatile interfaces, including support for most electrical bolts/latches, magnetic locks, and 12V access accessories such as motion sensors, buttons, and alarms. Three **Ethernet PoE-powered** reader interfaces minimize cabling and offer a convenient way to add a **UniFi G3-Flex** surveillance camera for added security. The **UniFi Access** solution is managed with **UniFi Access Controller** software. Easily manage users, visitors, schedules and access policies through an intuitive browser-based interface.

Convenient and easy control with UniFi Access Controller

Easy remote management of **Access** devices via one simple interface. You can set schedule, access rules for different devices. Easily assign access rights to **NFC cards**. Keep detailed logs, make Graphs, view statistics.

Key features

- Powered by 802.3bt (PoE++) switch
- Three 802.3af PoE ports for UniFi readers and G3 Flex surveillance camera
- Relays powered by 12V and dry compatible with most locks
- Four inputs for motion sensors, request-to-exit devices and door position switch
- Managed by UniFi Access Controller in UDM-Pro
- DIN rail mounting
