Manufacturer: UBIQUITI

Referention number: DNXXGMMJIRMMIQ

Product features

Height	324.8 mm
LED indicators	Yes
Width	113.7 mm
Depth	28.3 mm
Maximum resolution	1024 pixels
Speaker power	2 W
Screen shape	Flat
Near Field Communication (NFC)	Yes
Brightness adjustment	Yes
Maximum image resolution	3264 pixels
Compliance certificates	CE
Remotely operated	Yes
Touchscreen technology	Capacitive
RFID frequency	13.56 MHz
RFID reading distance	30 mm
Power consumption (max)	13 W
Access code reader	Yes
Access chip/card reader	Yes
Authentication type	Access chip/card
Humidity measurement range	5 - 90%
Touchscreen	Yes
Ethernet LAN (RJ-45) ports	1

Number of cameras	1
DC voltage range	48 V
Operating temperature (T-T)	-30 - 60 °C
Number of speakers	1
Total megapixels	8 MP
Display diagonal	7 "
Keypad integrated	Yes
Water-resistant	Yes
International Protection (IP) code	IP65
Mounting bracket(s) included	Yes
Ethernet LAN data rates	1000 Mb/s
Power over Ethernet (PoE) ports quantity	1
Power over Ethernet (PoE)	Yes
Bluetooth version	4.2
Bluetooth	Yes
Temperature alarm	Yes
Built-in speaker(s)	Yes
Fingerprint reader	No
Front camera	Yes
Product colour	Black
Front camera type	Single camera
Built-in display	Yes
Watch case material	Aluminium
Type	Entrance control terminal
Sustainability compliance	Yes
Product weight	965 g

Full product description

Ensure security and convenience with Ubiquiti UA-Intercom !

This advanced video intercom offers **unparalleled functionality and high build quality** to manage residential and commercial entry requests in a modern and secure manner . With support for PoE, NFC and Bluetooth, the UA-Intercom is ideal for residential and commercial buildings, providing remote access control and monitoring.

Versatile mounting options

The Ubiquiti intercom can be **easily mounted on a wall or pole** with the included mounting accessories. Optional kits allow for surface or recessed mounting, allowing you to customize your installation to meet your specific needs. Wall or pole mounting for cameras provides installation flexibility in a variety of locations. Weatherproofing (IP65) makes the unit ideal **for outdoor applications, regardless of the weather**. A professional wall or pole mount ensures stability and durability of the installation.

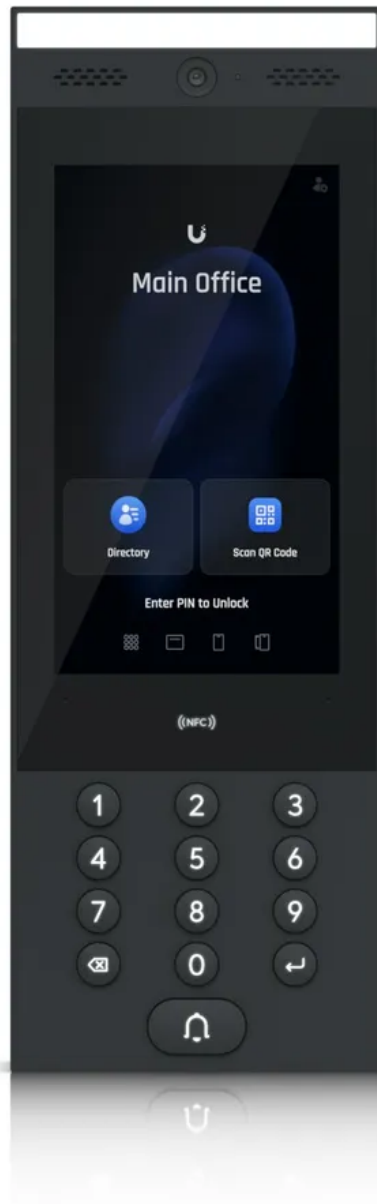

Advanced security technologies

The video intercom **supports NFC and Bluetooth 4.2**, which enables convenient and secure access management via NFC cards and mobile devices. ESD/EMP protection function provides additional protection against electrostatic discharge and electromagnetic pulses. Multi-layer data encryption and compliance with UL 294 and CAN/ULC-60839-11-1 standards guarantee **the highest level of security**. The device, which works in conjunction with the Access Intercom, enables visitor control and remote access control.

Advanced functionality

The Ubiquiti UA-Intercom features **a 7-inch display** with a resolution of 1024 x 600, providing a clear image and ease of use. With capacitive multi-touch technology, the interface is intuitive and responsive, enabling easy management of residential and commercial entry requests. **A 3264 x 2448 (8 MP) camera with a wide viewing angle** provides excellent image quality, enabling accurate monitoring of the environment. The device uses multi-layer data encryption, which increases the security of communications.

Easy-to-use interface

The Ubiquiti UA-Intercom features a display that works with the Access Intercom to easily manage building access. With the UniFi Access app, you can remotely monitor and control building access using your smartphone. The ability to **unlock the door with a PIN code, NFC card or mobile app** provides flexibility and convenience.
