Full product description

Ubiquiti UA-Ultra - an access reader that provides full control over access to rooms.

The Ubiquiti UA-Ultra is an advanced NFC and Bluetooth access reader that offers unparalleled access control and security management capabilities while providing ease of installation and use. **Designed for superior performance**, the Ubiquiti UA-Ultra is an ideal choice for companies looking to upgrade their access control systems.

Exceptional functionality and safety

The Ubiquiti UA-Ultra offers advanced access control capabilities through integration with UniFi Access. With NFC and Bluetooth support, users can open doors using an NFC card or the UniFi Identity mobile app. In addition, the device features IP55 protection, ensuring **outdoor resistance** and reliable performance in a variety of environments.

Ease of installation and power supply

The UA-Ultra reader is designed with simplicity of installation in mind. Thanks to PoE technology, the device can be powered and simultaneously transmit data over a single Ethernet cable. **Mounting** in a wall or on a standard terminal **is quick and intuitive**, making integration into existing systems seamless.

Integration with UniFi ecosystem

The UA-Ultra is part of the UniFi ecosystem, allowing for easy **integration with other Ubiquiti devices and applications**. Access management and real-time monitoring becomes easier with the UniFi Access app. Ubiquiti UA-Ultra is a solution that combines convenience with advanced functionality.
