Full product description

Ubiquiti UACC-Adapter-PT-120W power supply - for Power TransPort-compliant devices

With its robust design and high efficiency, this power supply provides stable power supply and surge protection to ensure safe and efficient operation of your devices.

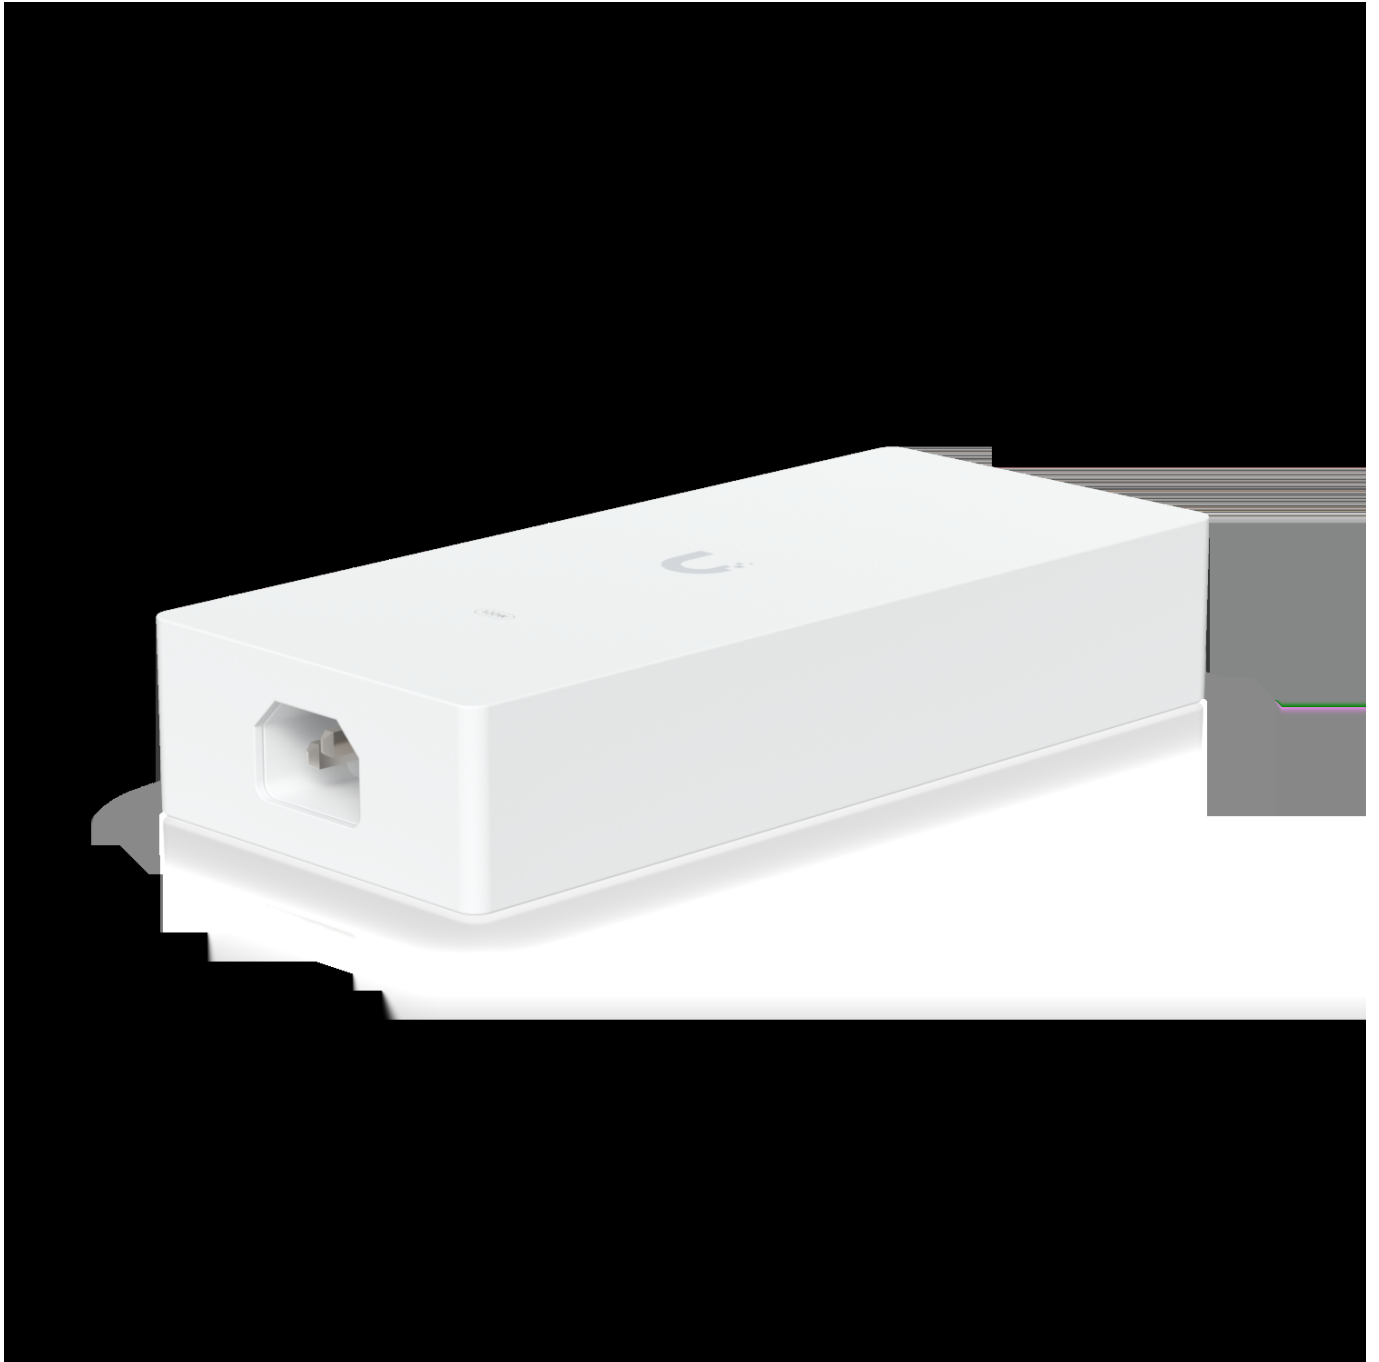

High output power

The Ubiquiti UACC-Adapter-PT-120W product offers **120W output power** at 27V DC and 4.44A current, making it ideal for powering demanding network devices. This provides a stable and reliable power supply, minimizing the risk of failure. With this power supply, **you can power a variety of Ubiquiti manufacturer devices** such as UISP Power, UISP Box, UISP Router and UISP Switch, adding to its versatility and functionality.

Safety and security

The power supply is equipped with ESD/EMP protection, providing protection against electrostatic discharge and electromagnetic pulses. This increases the safety of your devices and prolongs their life. The discharge protection class is $\pm 10\text{kV}$ in air and $\pm 6\text{kV}$ on contact, providing **additional protection against surges.**

Robust design and ease of use

The power supply is made of durable polycarbonate, which ensures its **strength and resistance to mechanical damage**. Its compact size (169.1 x 75 x 31.6 mm) and lightweight design (448 g) make it easy to install and use. The power supply is equipped with an IEC320 C14 connector and an AC input power cable is included, making it easy to connect to the mains supply.
