Full product description

AI-Pro-Dome camera protection in harsh weather conditions

If you're looking for **long-term protection of your** UVC-AI-Dome camera from adverse weather conditions, **the Ubiquiti UACC-AI-Pro-Dome-WS-W** is the product that will give you peace of mind. The shield protects the IP camera from rain, snow and dust, ensuring impeccable image quality. With **easy installation** on a **wall or pole**, you can easily use it in any environment, whether indoor or outdoor.

Resistance to harsh weather conditions

The Ubiquiti **UACC-AI-Pro-Dome-WS-W** is designed to provide additional protection for **UVC-AI-Dome** cameras, allowing them to be mounted outdoors. With this cover, the camera is able to **withstand rain, snow and other weather conditions**, making its performance stable regardless of the weather. This is an ideal solution for outdoor surveillance installations in weather-prone areas.

Protection against dust and dirt

With the camera protection **cover**, **the product** effectively **prevents the accumulation of dust** and other dirt on the camera lens. This is an important element of protection, since the cleanliness of the lens affects the **quality of the image**, and the absence of dirt ensures **a clear image** even in difficult conditions. The cover allows you to check the condition of the device and maintain its **performance** for a long time.

Easy installation

The Ubiquiti **UACC-AI-Pro-Dome-WS-W** is easy to mount on both a **wall** and a **pole**, allowing quick installation without the need for specialized tools. The product is fully compatible with the **UVC-AI-Dome**, which means no additional setup is needed to start using it.

High-quality housing material

The cover is made of **polycarbonate**, a material that provides high resistance to mechanical damage and **weathering**. This makes the product durable and resistant to a variety of conditions, providing long-lasting protection for the camera, even in high-traffic areas or extreme weather conditions.
