Full product description

Ubiquiti UACC-Cable-PT-Ext - Power TransPort cable extension kit for a reliable and secure connection!

This kit is the ideal solution for those who need power cable extensions for professional installations. With **its robust construction and high weather resistance**, the Ubiquiti UACC-Cable-PT-Ext is an ideal choice for anyone who values quality and reliability.

High resistance to weather conditions

The Ubiquiti UACC-Cable-PT-Ext features **an enclosure made of UV-stabilized polycarbonate**, ensuring its long-term durability against exposure to the sun and other weather conditions. With an IPX6 rating, **the set can withstand heavy jets of water**, making it ideal for outdoor use. The robust design ensures reliable performance in a variety of conditions, protecting the cables from mechanical damage and environmental influences.

High wind resistance

The kit can withstand wind speeds of up to 200 km/h (124.27 mph), making it ideal for open-air installations where it may be exposed to extreme weather conditions. As a result, even in the most demanding environments, you can rest assured that your connections will be safe and stable.

Easy to install

The UACC-Cable-PT-Ext kit is **easy to mount on a pole** with a diameter of 35 to 60 mm, providing installation flexibility in a variety of locations. Thanks to its intuitive design, installation is quick and easy. The compact size and light weight allow convenient installation without the need for specialized tools.
