Full product description

Ubiquiti UACC-Camera-CJB-B - Secure installation and aesthetics in one.

The Ubiquiti **UACC-Camera-CJB-B** is a **tamper-resistant junction box** that enhances the durability of your installation and provides an aesthetically pleasing appearance. With it, you get a **safe, durable and tidy installation** that works well in both residential and industrial installations.

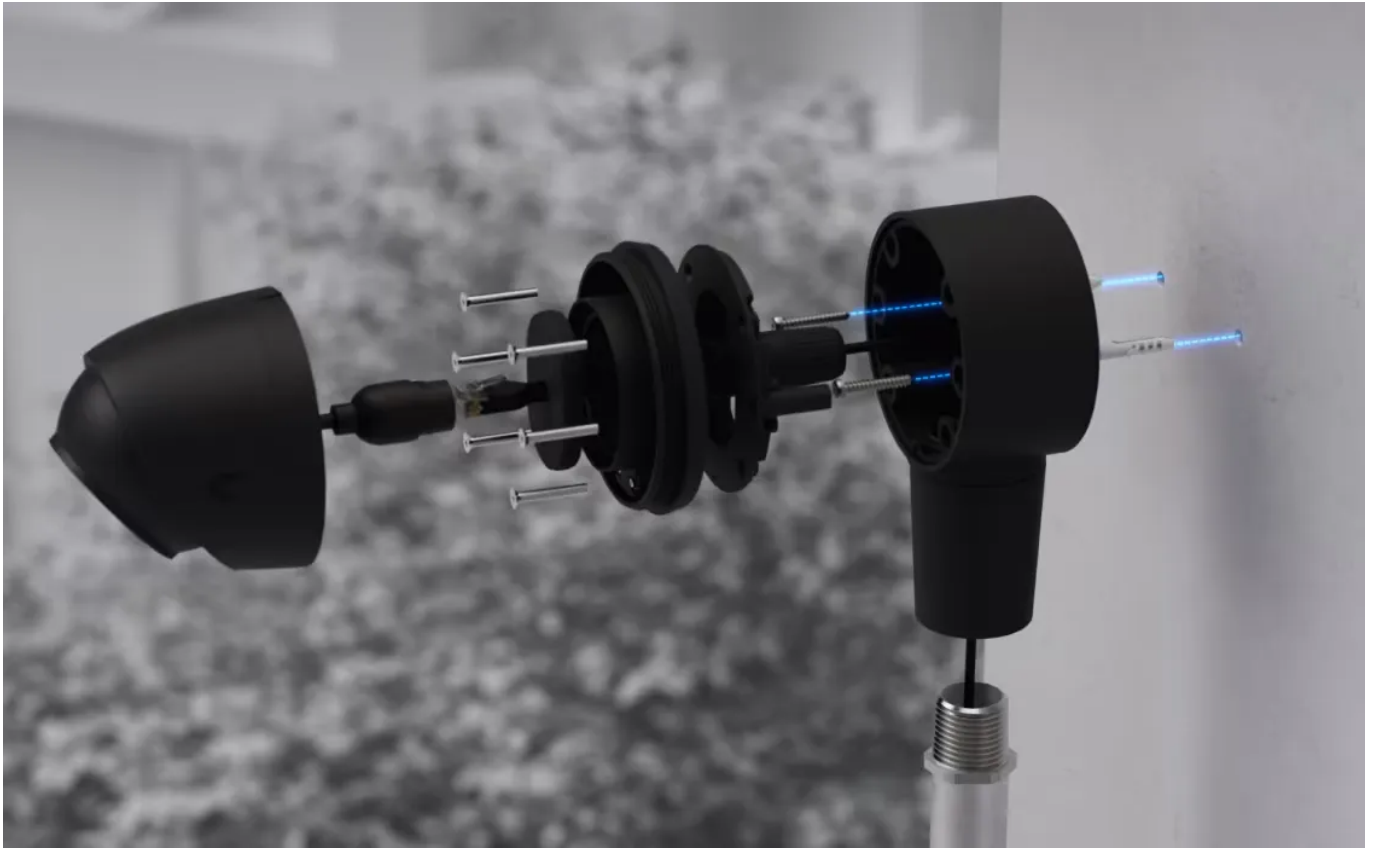

Robust, tamper-resistant design

The Ubiquiti **Camera Compact Junction Box** is made of **aluminum alloy and polycarbonate** for durability and damage resistance. It's a tamper-proof camera junction box that keeps surveillance running smoothly. It protects wires and connectors from unauthorized access, which **increases the security of** the entire installation.

Aesthetics and ease of installation

Thanks to its design, the box **improves** installation **aesthetics** by hiding cables and connectors inside. **The mounting bracket** allows for quick attachment to a wall, ceiling or pole, ensuring the stability of the installation. **The Ubiquiti UACC-Camera-CJB-B** also makes servicing cameras easier, eliminating the problem of sloppily routed cables.

Compatibility with UniFi cameras

The product was created specifically for the **UVC-G5-Dome-Ultra** and **UVC-G5-Turret-Ultra** models, ensuring a full fit and easy installation. The junction box for **UniFi Dome and Turret** cameras is properly contoured, so it fits perfectly and requires no additional modifications.

Durability and resistance to external conditions

The robust mounting material makes the box suitable for both indoor and outdoor use. The design is weatherproof, ensuring a long product life. The Ubiquiti Camera Compact Junction Box allows you to **safely mount** cameras in demanding environments.
