Full product description

Cable raceway straight Ubiquiti UACC-CRS - the perfect solution to organize your network cables!

With its modern design and white color, the cable cover **blends** in perfectly **with a variety of interiors**, maintaining an aesthetically pleasing order. The subtle and minimalist design of the product not only hides the cables, but also adds elegance to any room where it is used. It is ideal for offices, homes and public places where aesthetics matter.

Robust construction

Ubiquiti's UACC-CRS product is made of high-quality materials such as ABS and polycarbonate for **long-lasting durability and resistance to mechanical damage**. These materials are known for their excellent impact strength and wear resistance, so the cable cover will last for many

years without needing replacement.

Easy to install

The simple design allows for quick and hassle-free installation, enabling effective cable management without the use of specialized tools. The modular design of the cable cover allows it to be easily customized and expanded according to user needs. In addition, the **lightweight design** makes it easy to manipulate and **install even in hard-to-reach places.**
