### Full product description

## Ubiquiti UACC-Intercom-FM flush mount that is designed for durability and ease of installation

This is a solution for those who appreciate both aesthetics and solidity of workmanship. With this flush mount, you can enjoy not only the beautiful appearance of your intercom system, but also the confidence that it is securely and permanently installed.

## Easy and quick installation

Mounting the Ubiquiti UACC-Intercom-FM is extremely easy thanks to its intuitive design. The solid mounting ensures stability, and the properly designed dimensions allow it to easily fit into most standard mounting locations. This will save you time and avoid installation problems, making this solution ideal for both professionals and home users.

## Wide operating temperature range

The Ubiquiti UACC-Intercom-FM is designed to withstand extreme weather conditions. With **an operating temperature range of -30 to 60°C** and the ability to store in temperatures as low as -40°C, you don't have to worry about reliable performance in harsh conditions. This makes this flush mount an ideal choice for applications in different climate zones.
