Manufacturer: EXTRALINK

Referention number: DNXGGMKIRMJQ

Information:

The EXTRALINK TOYS wooden board is a durable, eco-friendly and versatile educational toy for children. Its double-sided design combines a magnetic dry-erase board with a classic chalkboard, providing space for drawing, writing with markers and learning with magnets. The board supports the development of first letters and numbers, stimulates creativity and helps practise artistic skills. The additional abacus and clock make learning mathematics and telling the time easier, making play even more valuable.

Full product description

Wooden Construction - Durability and Ecology

Our **EXTRALINK TOYS wooden board** is not only elegant in appearance, but also guarantees durability and an eco-friendly approach. **The sturdy wooden construction** ensures stability and longevity, making it an ideal choice for families who value durable and environmentally friendly toys.

Double-Sided Whiteboard - Two Times More Fun

The **double-sided whiteboard** is the perfect solution for creative children. One side is a magnetic dry erase board on which you can **write with markers and attach magnets**. The other side is a classic chalkboard, ideal for drawing and learning to write. This **versatility** provides hours of fun and learning, developing both the child's artistic and educational skills.

Learning Through Play - Perfect for First Letters and Numbers

The **EXTRALINK TOYS board** is an excellent tool for learning through play. **Children can practice their first letters and numbers**, which is crucial for their proper development. The magnetic board allows the use of a variety of educational magnets, making **learning a fascinating adventure**.

Developing the Artistic Sense

Our whiteboard is not only for learning, but also for developing **artistic sense**. Children can create wonderful drawings on the chalk side, and experiment with colorful markers on the dry erase side. It's the perfect place to express themselves and discover their artistic potential.

Clock and Counting Machine - Additional Educational Features

The board is also equipped with **an abacus and a clock** to help **teach math and time reading**. These additional educational elements make the **EXTRALINK TOYS** whiteboard an even more valuable tool to support a child's development.
