Price: **3,356.19 zł** gross / 2,728.61 zł net

Manufacturer: UBIQUITI

Referention number: DNXXGGKHNLMMKI

Product features

SFP transceiver type	Fiber optic
Maximum data transfer rate	10000 Mb/s
Maximum operating temperature	70 °C
Operating temperature (T-T)	0 - 70 °C
Minimum operating temperature	0 °C
Fiber optic connector	LC
Single-mode fiber (SMF) supported	Yes
Product colour	Stainless steel
Maximum transfer distance	10000 m
Rx wavelength (max)	1310 nm
Tx wavelength (max)	1310 nm

Full product description

Take your network performance to a new level with the Ubiquiti UACC-OM-SM-10G-D-20 SFP module.

This advanced fiber-optic module is designed for **long-distance data transmission**, providing reliability and high throughput for the most demanding network applications. Ideal for industrial, commercial and data center environments.

High data transmission speed

The Ubiquiti UACC-OM-SM-10G-D-20 module offers data transmission speeds of up to 10 Gbps to **support the most demanding network applications**. Thanks to the high throughput, users can enjoy fast and stable connections, which is crucial for modern data centers and enterprises. Regardless of the amount of data to be transferred, this module will ensure its smooth and seamless transmission.

Long-distance data transmission

With a range of up to 10 km, the Ubiquiti UACC-OM-SM-10G-D-20 **is ideal for long-distance fiber connections**. With this module, you can seamlessly connect remote locations, which is essential for large campuses, office complexes and other extensive networks. This provides flexibility and scalability to your network infrastructure.

Easy installation and integration

The module is equipped with LC duplex connectors, which are commonly used in fiber optic systems, making **it easy to integrate with existing network equipment**. Compatibility with a wide range of switches and routers makes installation quick and easy. So you can quickly expand your network without the need for complex configurations.
