Full product description

Meet Ubiquiti UACC-PSU-UDW - a power module with exceptional power and reliability, designed specifically for Dreamwall systems!

With an impressive 550W performance and top-notch build quality, it is the ideal solution for professional network installations, ensuring the stability and safety of your equipment.

High performance

The Ubiquiti UACC-PSU-UDW power module offers **550W output** power, allowing you to reliably power even the most demanding network devices. Thanks to its high power output, you can be sure that your systems will run smoothly.

Durable design

The housing made of aluminum, SGCC steel and polycarbonate (PC) provides exceptional durability and resistance to mechanical damage. The robust materials guarantee **a long life of the module**, even in demanding operating conditions.

Safety and certifications

The power supply unit is CE, FCC and IC certified, which proves its compliance with international safety and quality standards. You can be sure that you are using a product that meets the highest standards.
