Full product description

Ubiquiti - proven solutions for access control systems

The **Ubiquiti** brand is one of the leading manufacturers of network solutions and access systems. The **UACC-Reader-Pro-JB-W junction box** is a product that has been designed with **UniFi Access** and **UniFi Protect** users in mind. It makes the installation of readers and bells smooth and uncomplicated.

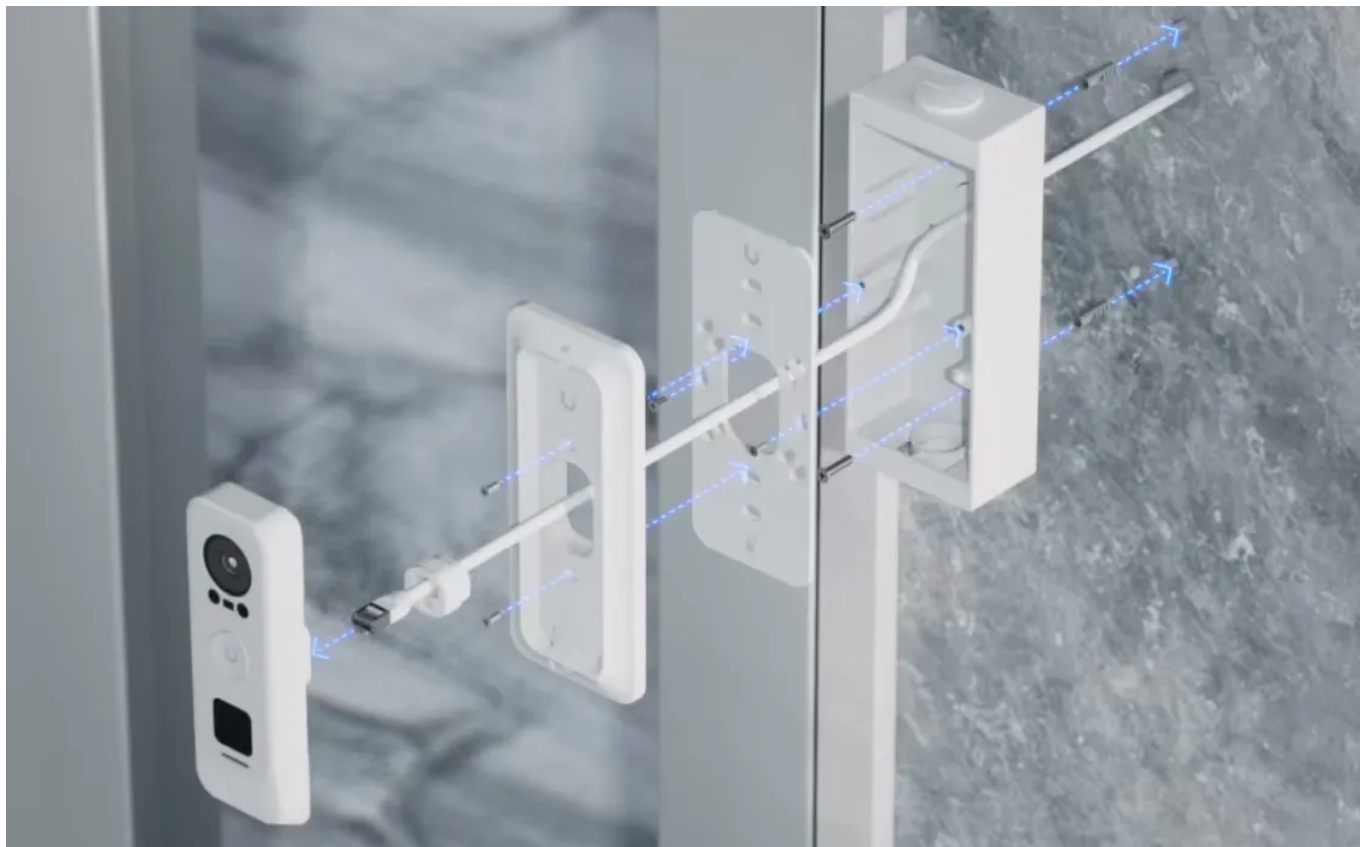

Universal purpose and compatibility

The **UACC-Reader-Pro-JB-W** is compatible with the **UA-G2-Pro**, **UVC-G4 Doorbell Pro PoE Kit** and **UA-G3-Pro** models, making it a universal solution for Ubiquiti Networks systems. The junction box allows for both flat mounting and **installation via 3/4" threads**, providing a wide range of adaptability. This allows you to customize the installation to suit your needs.

Robust construction and weather resistance

Made of **polycarbonate, sponge and rubber**, the **UACC-Reader-Pro-JB-W** junction box is resistant to moisture, dust and mechanical damage. The product performs well in a variety of conditions, which means it can be used both **indoors and in more demanding locations**. Thanks to the use of durable materials, the installation of the bells and readers is safe and durable.

Simple assembly and easy installation

The junction box is designed for quick and hassle-free installation. Being able to be installed **on a wall or using a VESA mount**, users can tailor it to their needs. The product facilitates the organization of cabling and **ensures the stability of the entire installation**, which translates into better safety of devices.

Aesthetic design in white color

The color of the product - **white** - allows the junction box to match different interiors and **UniFi Access** systems. Thanks to carefully selected materials, the product maintains an aesthetically pleasing appearance, which is important in places that require a consistent design. Ubiquiti is committed to **high quality**, and the **UACC-Reader-Pro-JB-W** combines functionality with aesthetics.
