Product features

Compatibility	Wave AP Micro
Product colour	White
Product weight	1400 g

Full product description

Meet the mounting bracket designed specifically for the four Wave AP Micro Ubiquiti!

This product provides a reliable and durable pole-mounting solution for optimal placement of network devices. Thanks to its robust construction and weather resistance, it is the ideal accessory for professional wireless network installations.

Robust construction

The mounting bracket is made of powder-coated **stainless steel**, which provides exceptional durability and corrosion resistance. This makes the product ideal for outdoor installations, withstanding even the harshest weather conditions. It is a robust solution that guarantees the longevity and reliability of your network.

Wind resistance

The Ubiquiti UACC-Wave-AP-Micro-Mount is designed for **high wind resistance**, withstanding speeds of up to 200 km/h (125 mph). So you can rest assured that the mount will hold your antennas stably even in extreme weather conditions. It's security you can count on to ensure the uninterrupted operation of your network.

Flexibility of installation

The mounting bracket allows installation on poles with diameters ranging from 25 to 76 mm (1 to 3 inches), giving you **great flexibility in your choice of mounting location**. This makes it easy for you to customize your installation to ensure optimal network performance. It's a simple and fast mounting solution that makes it easy to install and configure devices.
