Price: **1,376.30 zł** gross / 1,118.94 zł net

Manufacturer: UBIQUITI

Referention number: DNFXMHQODRMMKP

Product features

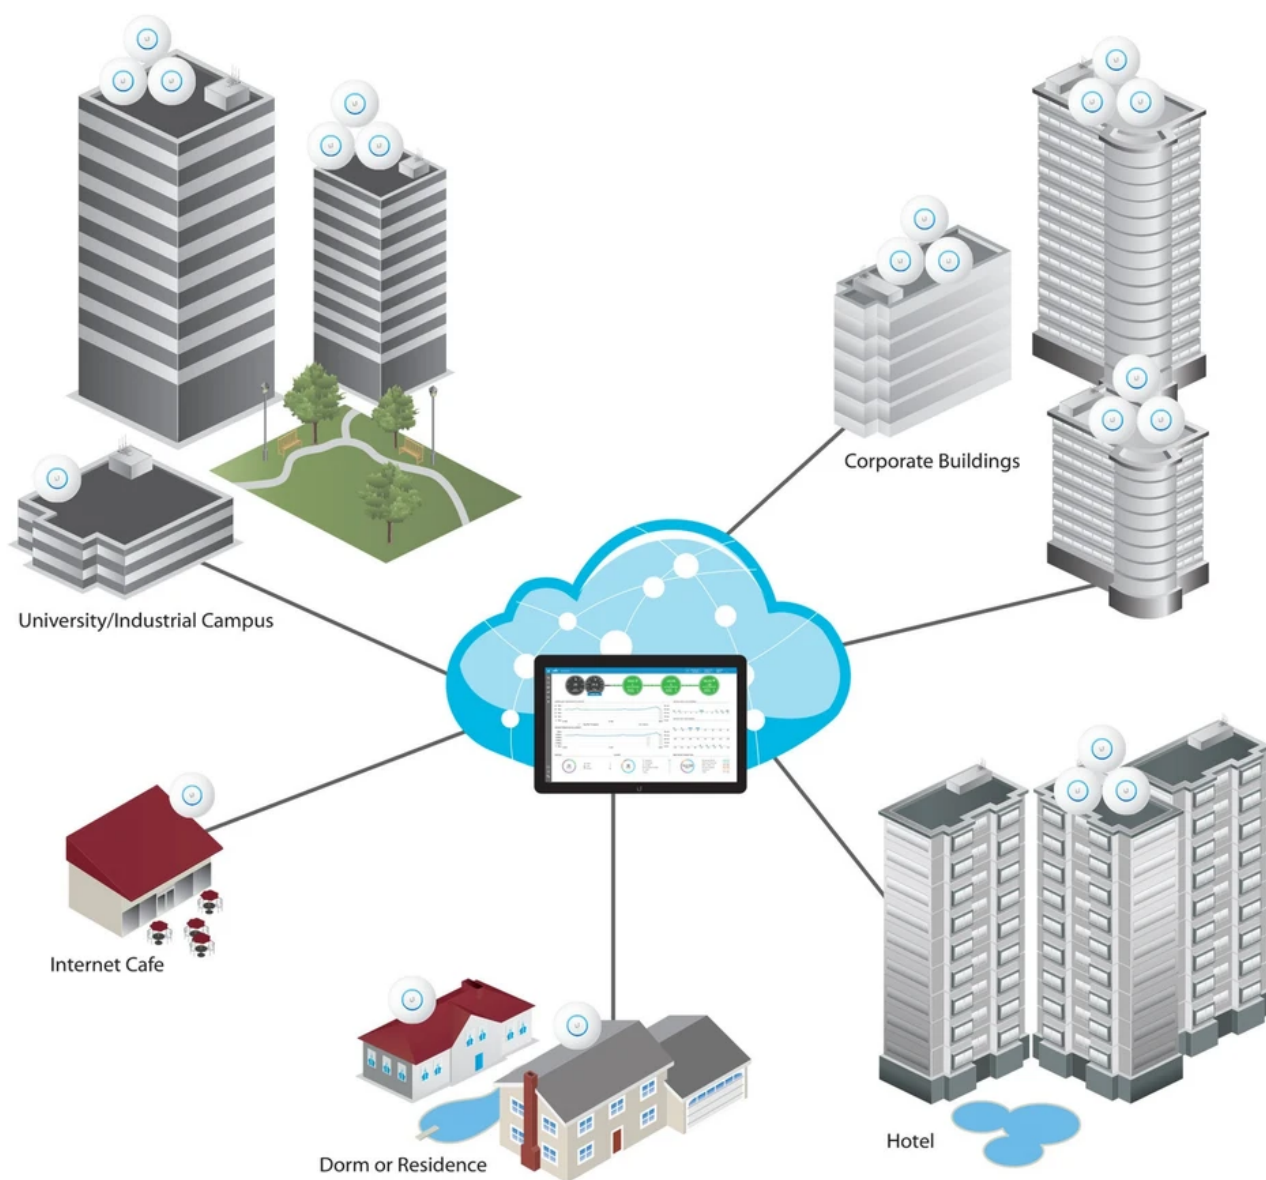

Regulatory Approvals	CE, FCC, IC
Height	48.1 mm
Antenna type	Internal
Width	220 mm
Depth	220 mm
USB connector type	USB Type-C
Security algorithms	AES
Wi-Fi Multimedia (WMM)/(WME)	Yes
Mounting kit	Yes
Maximum data transfer rate	1733 Mb/s
Power consumption (max)	17 W
Humidity measurement range	5 - 95%
Harmonized System (HS) code	85176990
Networking standards	IEEE 802.11a
Ethernet LAN (RJ-45) ports	2
Operating temperature (T-T)	-10 - 70 °C
Cabling technology	10/100/1000Base-T(X)
Quality of Service (QoS) support	Yes
VLAN support	Yes
Reset button	Yes
Dynamic Frequency Selection (DFS)	Yes
Power over Ethernet (PoE)	Yes

MIMO type	Multi User MIMO
MIMO	Yes
Placement	Ceiling
Antennas quantity	4
Number of SSID supported	8
Antenna features	Integrated antenna
Product colour	White
5 GHz	Yes
2.4 GHz	Yes
Product weight	700 g

Full product description

UAP-AC-HD UniFi from Ubiquiti - maximum performance

UAP-AC-HD UniFi from Ubiquiti is a high quality **access point** for building a wireless network, even for 500 clients. The advantage of the access point is maximum enterprise class performance and an attractive price. Build your Wi-Fi network with a UniFi® HD access point as part of the UniFi Enterprise Wi-Fi system. **UAP-AC-HD** supports 802.11AC Wave 2 standard with a throughput of up to 2533 Mbps and a maximum range of 122 meters. Designed to take full advantage of 802.11AC Wave 2, UAP-AC-HD provides superior multi-user support.

Wide range of UniFi OS Console software capabilities

Easily accessible through any standard web browser and UniFi (iOS or Android™) application, **UniFi OS Console** is a powerful software tool, ideal for high concentration client applications requiring low latency and high performance.

Increased productivity with MU-MIMO technology

UniFi HD AP is the first UniFi HD AP in the 802.11ac Wave 2 standard. With **4x4 MU-MIMO** technology (Multi-User, Multiple Input, Multiple Output) **the UniFi HD AP** provides up to 125% higher performance than a typical Wave 1 access point.

Build an efficient network with other UniFi devices

Start building a network from a single UAP-AC-HD access point and extend the network to thousands of other devices, while maintaining a uniform UniFi management system.
