Price: **120.54 zł** gross / 98.00 zł net

Manufacturer: EXTRALINK

Referention number: DNKGJQQQLRMNMO

Information:

The ultrasonic scaler for home oral hygiene helps remove tartar, plaque and superficial stains caused by coffee, tea or tobacco. It offers 5 intensity levels, allowing the action to be matched to tooth sensitivity and the amount of build-up. The device's intelligent operation activates vibrations on contact with the teeth, and reduces intensity on contact with the gums, increasing comfort and safety. Automatic UV sterilisation of the tip ensures hygiene, while the included accessories make it easier to clean hard-to-reach areas thoroughly.

Full product description

Healthy smile in your home

Discover a solution for **home oral hygiene**. This **ultrasonic scaler** effectively helps remove **tartar**, plaque and stubborn discolouration. Thanks to **5 intensity modes**, it allows the operation to be individually adjusted to the user's needs. It supports healthy teeth, reducing the need for frequent visits to the dental surgery.

Key benefits

- **Support in tartar removal:** Helps regularly remove hard dental deposits at home.
- **Reduction of discolouration:** Makes it easier to tackle surface stains from coffee, tea or other products.
- **Tailored to your needs:** 5 intensity levels allow the operation to be adjusted to the user's sensitivity.
- **Hygienic use:** Automatic UV sterilisation of the tip helps ensure the device's safety and cleanliness.

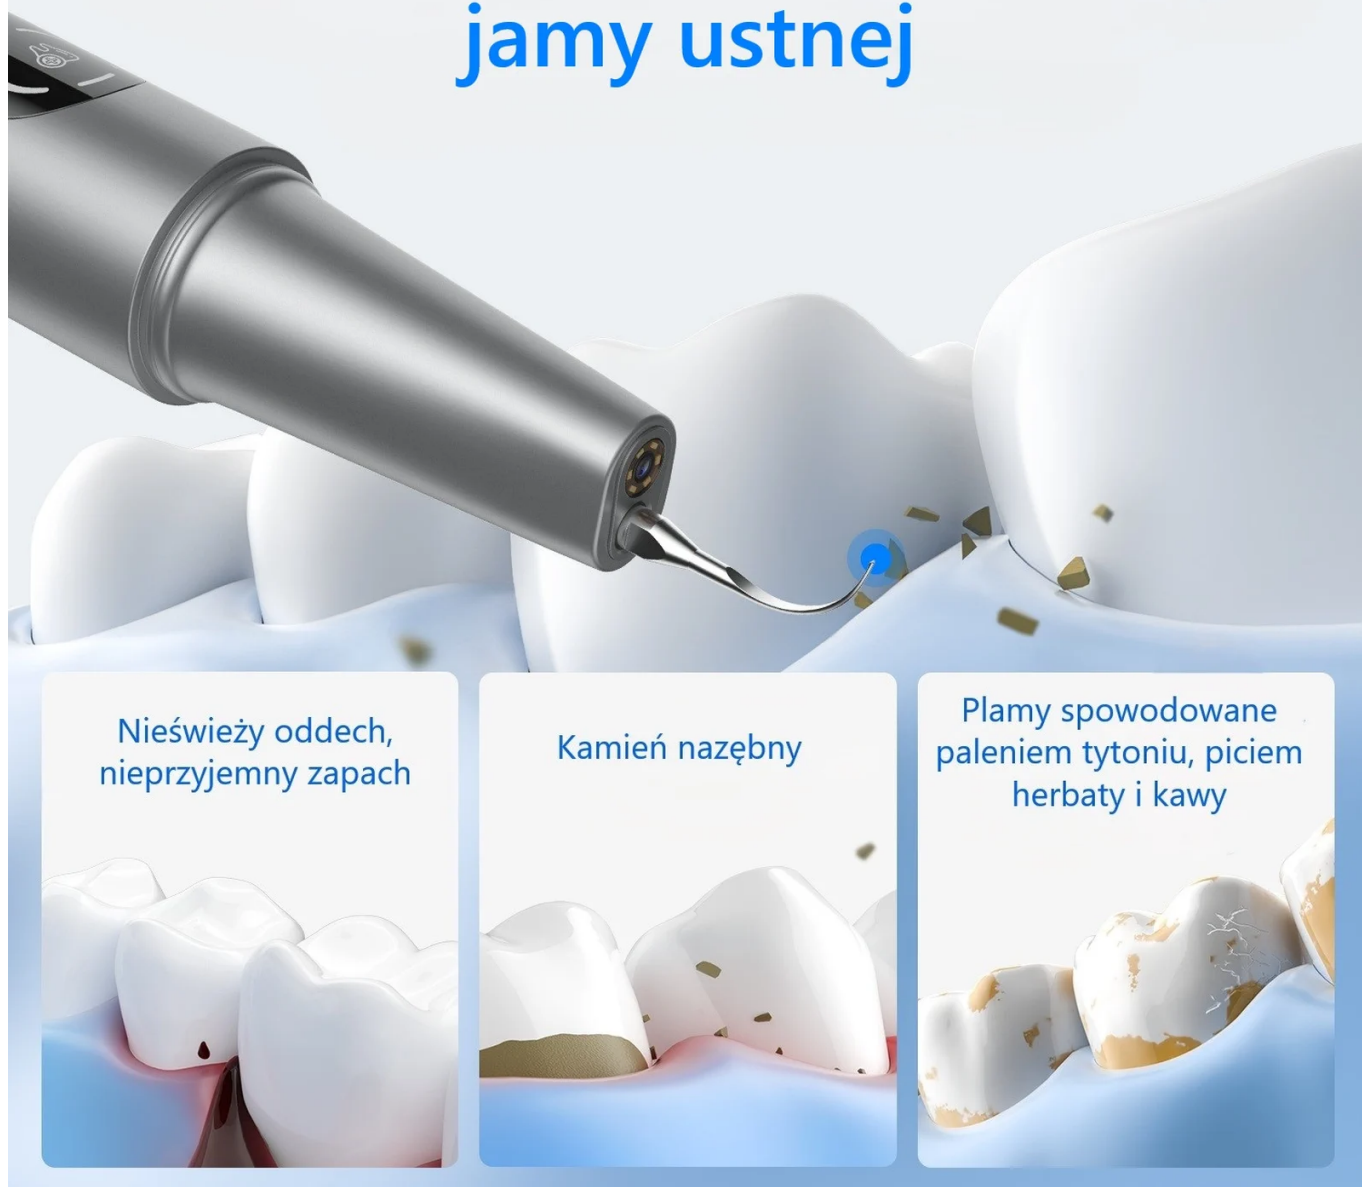

Removal of tartar and deposits

The scaler uses **ultrasonic technology** at a high frequency to break up hard deposits. It effectively deals with **tartar** and plaque. Thanks to the camera view in the app, you can observe the deposit removal process live and precisely guide the device tip.

Fighting discolouration

Regular use helps tackle surface issues such as **discolouration** from coffee, tea or tobacco. The scaler supports daily hygiene, which may also help reduce the causes of **unpleasant breath**, ensuring comprehensive cleanliness and freshness.

Łatwa pielęgnacja jamy ustnej

Vibration technology

The device operates thanks to ultrasonic vibrations of suitable power. Importantly, **sound and vibrations** become fully active only when the tip comes into contact with the hard surface of the tooth. This makes the operation effective where it is needed, while offering greater user comfort.

2W Moc ultrasoniczna

Protection of delicate gums

The device has an intelligent surface recognition system. **Vibrations activate** upon contact with teeth, enabling effective tartar removal. However, when it comes into contact with soft tissues such as gums, the scaler automatically stops intensive operation. This solution helps protect sensitive areas of the mouth from irritation.

Adjust the intensity

The scaler offers **5 intensity levels** of operation (from Soft to Super), visible on a clear indicator. This allows precise adjustment of the action to the individual sensitivity of the teeth and the thickness of the accumulated deposit. You can start with gentler modes and gradually increase the power as needed.

UV light sterilisation

A high level of hygiene is key. The scaler has been equipped with a **UV sterilisation system**. This function activates automatically when the device is connected to charging. Ultraviolet light helps eliminate **up to 99.9% of bacteria** and microorganisms accumulated on the tip. This helps keep the accessories clean and ensures your safety.

Dezynfekcja Światłem Ultrafioletowym zabija aż do 99% bakterii.

Rich set of accessories

Included is a wide range of accessories that support **comprehensive care**. The set contains different types of tips, a dental mirror and other tools that make it easier to reach hard-to-access areas and clean precisely. Everything you need to take care of oral hygiene.

Who is this product for?

- For people who care about thorough daily oral hygiene.
- For people who drink a lot of coffee or tea, or smoke tobacco.
- For people prone to rapid tartar build-up.
- For those who want to complement professional hygiene treatment at the dental surgery.
