Price: **2,892.60 zł** gross / 2,351.71 zł net

Manufacturer: UBIQUITI

Referention number: DNXEIONDRMLPP

Product features

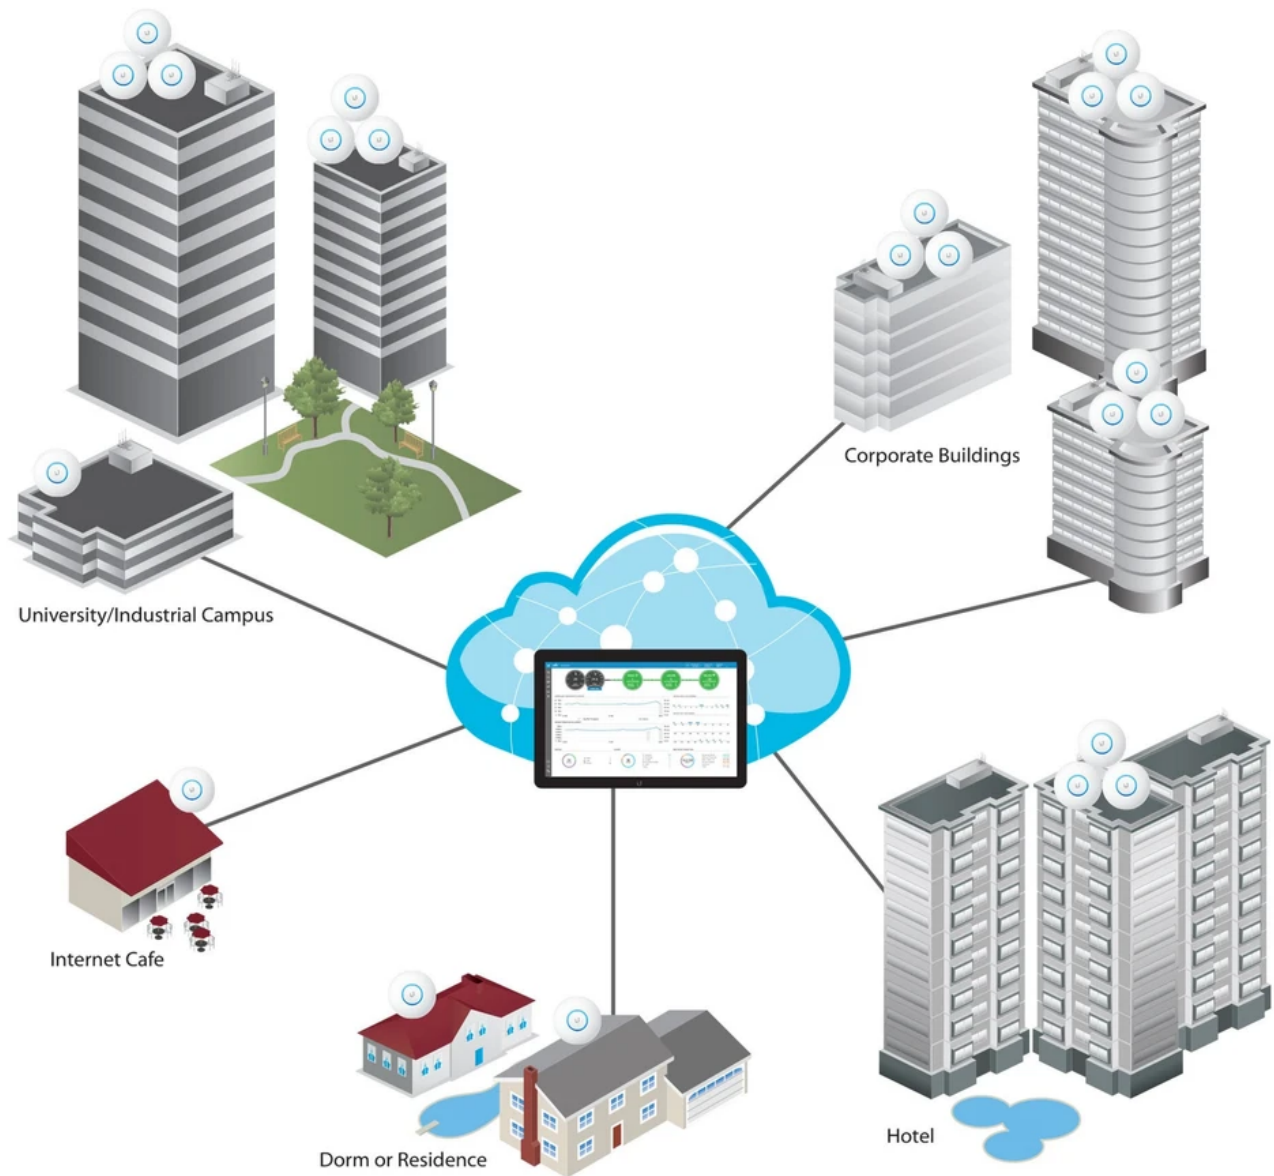

Regulatory Approvals	CE, FCC, IC
Height	35 mm
Depth	196.7 mm
Security algorithms	AES
Mounting kit	Yes
Input current	0.5 A
Maximum data transfer rate	1300 Mb/s
Power consumption (max)	9 W
Humidity measurement range	5 - 95%
USB 2.0 ports quantity	1
Harmonized System (HS) code	85176990
Ethernet LAN (RJ-45) ports	2
Antenna gain level (max)	3 gain
Wi-Fi data rate (max)	1300 Mbit/s
Operating temperature (T-T)	-10 - 70 °C
Reset button	Yes
Maximum indoor range	122 m
AC input voltage	48 V
Antennas quantity	3
Product colour	White
Internal	No
5 GHz	Yes

2.4 GHz	Yes
Product weight	350 g

Full product description

Build an efficient wireless network with the UAP-AC-PRO access point kit

UAP-AC-PRO UniFi is an excellent device for building a wireless network based on UniFi software. The access point works in two frequencies: 2.4GHz and 5GHz. It has innovative 3X3 MIMO antennas, enabling much faster connection in 802.11ac standard.

UniFi is a revolutionary Wi-Fi system

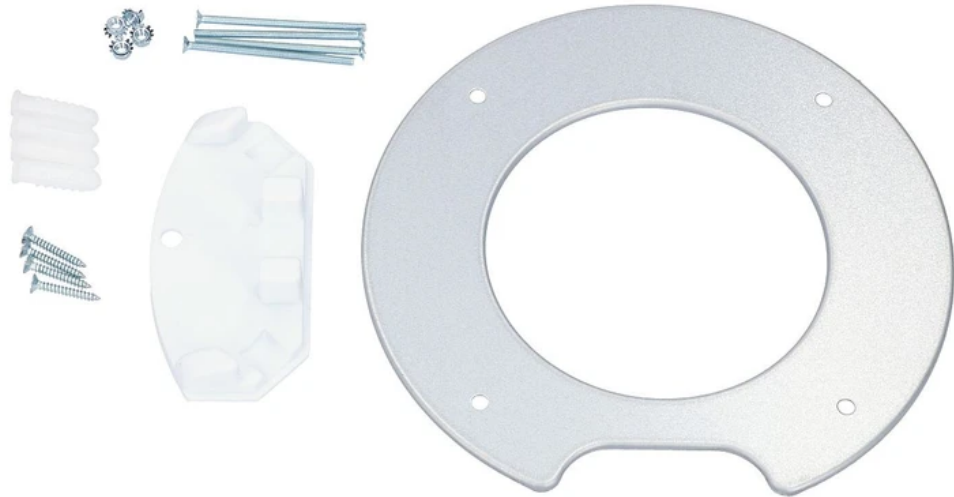

Which stands out with high performance, unlimited scalability and a central controller that allows you to manage all devices on the network via a single interface. **Access Points UniFi AC Pro** have a sophisticated design and can be easily mounted with the included mounting kit. The UniFi controller can be accessed using any web browser. It is a powerful tool to manage the entire network built with UniFi devices from one place. The software is very intuitive and requires no special training.

Save time and money

Unlike traditional company Wi-Fi systems that use a hardware controller, UniFi uses a dedicated controller that can be deployed on any computer or a dedicated UniFi Cloud Key.

Expandable

Unlimited scalability: building wireless networks has never been so easy. Start with one UAP device and expand your network to up to a thousand devices with one management system.

The most important functions:

- Range coverage map
- Performance parameters
- Real-time device status
- Automatic detection of UAP devices
- Advanced security options
