Full product description

Small and elegant device

Ubiquiti Inc. new product **UAP-FLEXHD** has powerful features and is ideal for businesses and homes. Modern and minimalist design allows you to place the device close to users for optimal performance.

High transmission quality

By using two wireless bands **5 GHz 4x4 MU-MIMO** with a transfer rate of **1,733 Gbps** and **2,4 GHz 2x2 MIMO** with a bandwidth of **300 Mb/s** we get a stable high-speed link that will allow you to connect many devices at once. Access points are ideal for creating **wireless networks**.

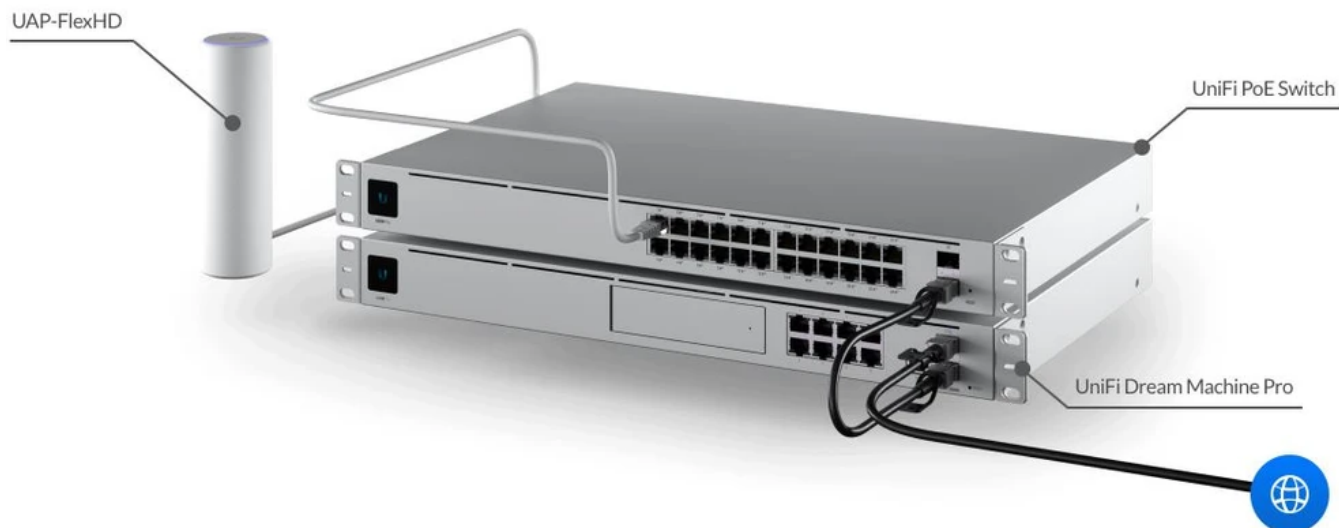

Scalable UniFi network controller

Control all your devices seamlessly with the UniFi software. The device has advanced features such as deep packet analysis, **VPN**, network management, **hotspot**, real-time data analysis.

Seamless network integration

UniFi AP Flex HD can be conveniently powered via the UniFi PoE switch.

Versatile mounting options

The sleek, compact design allows the UniFi AP Flex HD to be placed indoors and outdoors.
