Full product description

Ubiquiti UniF nanoHD access point - 3-Pack version

The **UniFi nanoHD access point** can be installed in densely populated areas where maximum wireless performance is required. The UniFi nanoHD access point features dual band technology **4x4 MU-MIMO** and PoE 802.3af compatibility. 802.11ac Wave 2 MU-MIMO technology (Multi-User, Multiple Input, Multiple Output) allows you to communicate with multiple clients at the same time, which significantly increases the bandwidth for many users at the same time and improves comfort. 3-Pack version - no power supplies included!

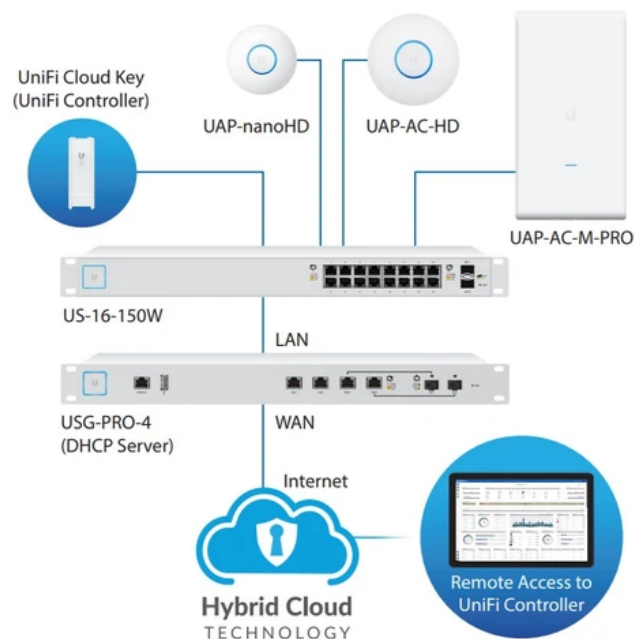

UniFi system for unlimited possibilities

UniFi® is an innovative Wi-Fi system that combines enterprise performance, unlimited scalability and a central management controller. **UniFi nanoHD AP** has a sophisticated design and can be easily installed with the included mounting elements.

Highly scalable with UniFi system

Build **wireless** networks of any size using UniFi series devices. Start with one NanoHD and expand your network to thousands of devices while maintaining a uniform management system.

Easily change the look of your NanoHD access point with covers in multiple designs

Covers for the UniFi nanoHD AP allow to integrate the nanoHD AP into any environment. Whether you mount your access point against a background of marble, concrete or wood, the UniFi nanoHD AP access point will fit seamlessly into your interior.
