Price: **723.99 zł** gross / 588.61 zł net

Manufacturer: UBIQUITI

Referention number: DNKGJOJRHMMPH

Information:

Ubiquiti UC-Cast-Lite is a simple and fast device for wireless casting of images in 1080p quality from laptops, smartphones and tablets. Thanks to Wi-Fi 6, it provides a stable, efficient connection even in crowded networks, and support for HDMI and USB-C ensures broad compatibility with modern devices. HDMI enables easy transmission of picture and sound to a TV, monitor or projector, while USB-C also allows power supply without an additional adapter. Integration with UniFi Connect makes quick configuration and convenient management easy.

Product features

Height	90 mm
Input voltage	5 V
USB charging port	Yes
Width	52 mm
Depth	31 mm
Compliance certificates	CE
USB ports quantity	1
Humidity measurement range	20 - 90%
Total storage capacity	16 GB
Processor family	ARM Cortex
Operating temperature (T-T)	0 - 40 °C
Processor frequency	1.9 GHz
Easy to install	Yes
Wi-Fi standards	802.11a
HDMI ports quantity	1
Top Wi-Fi standard	Wi-Fi 6 (802.11ax)

Processor model	A55
Processor manufacturer	ARM
Product colour	Black
Internal memory	2 GB
Product weight	160 g

Full product description

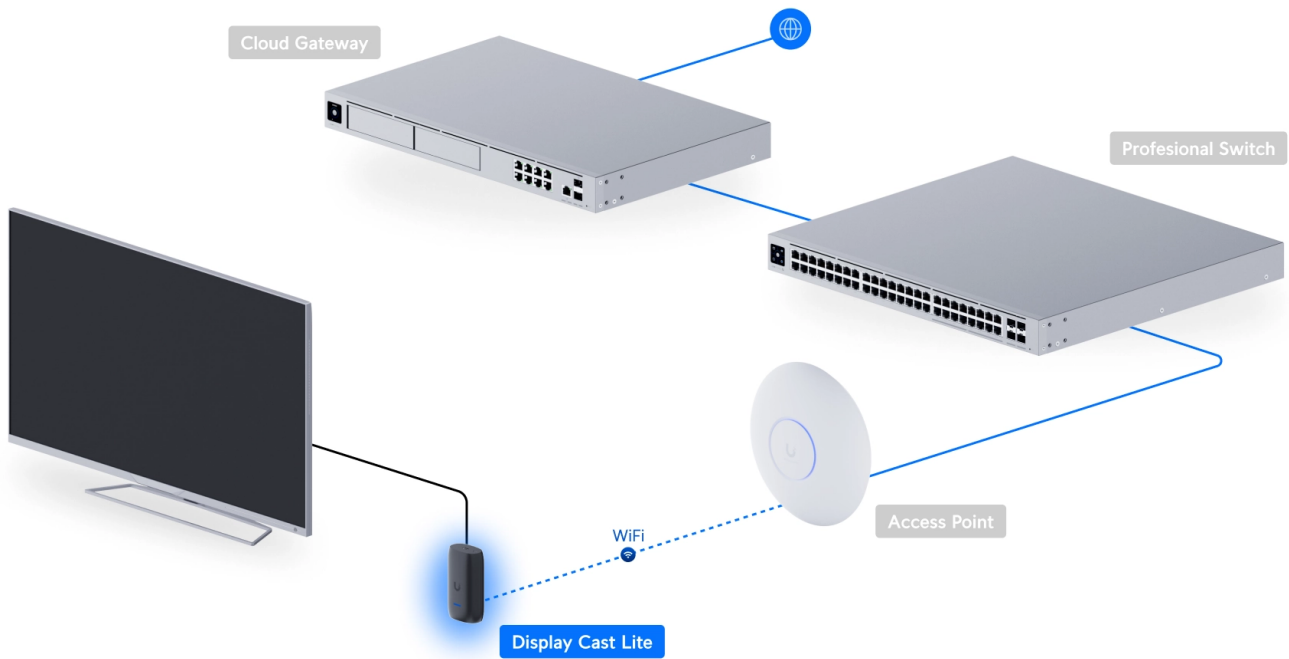

Ubiquiti UC-Cast-Lite - Simple and Fast Casting

The Ubiquiti UC-Cast-Lite is a device for easy and convenient **casting of** high-quality **displays**. With **Wi-Fi 6** (wireless networking standard) technology, you can stream **1080p** video from mobile devices or computers without the need for cables. The Ubiquiti UC-Cast-Lite supports both **HDMI**(High Definition Multimedia Interface) and **USB-C** (Universal Serial Bus Type-C), offering broad compatibility with devices that use these ports.

Wi-Fi 6 - Modern connectivity

The Ubiquiti UC-Cast-Lite supports **Wi-Fi 6**, the latest wireless networking standard that provides **faster transmission speeds** and **better performance** in congested networks. With Wi-Fi 6, the device is able to handle multiple simultaneous connections, preventing network slowdowns when traffic is heavy. **Wi-Fi 6** is also more energy-efficient, making the entire system more efficient.

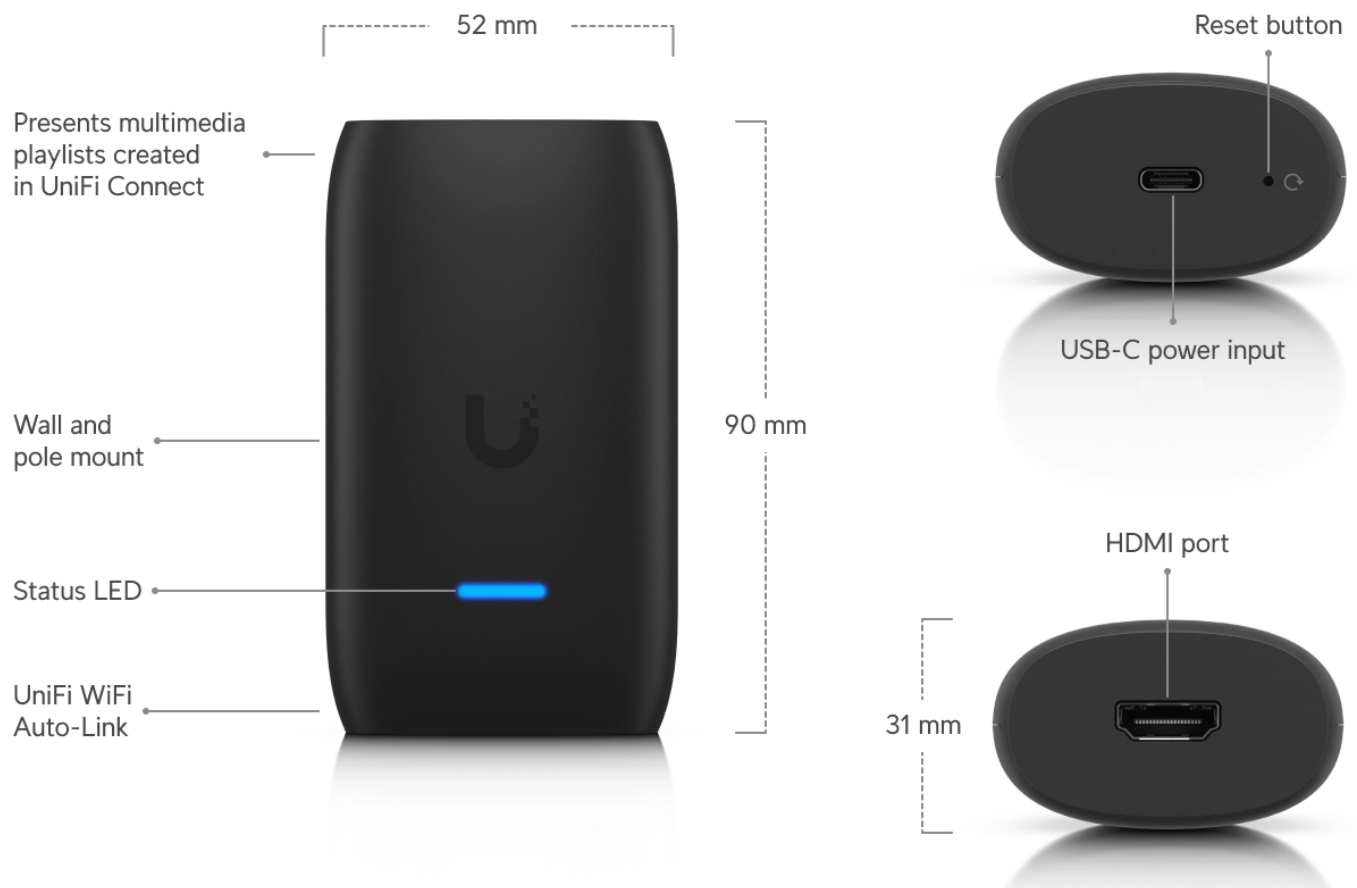

Excellent Picture Quality with HDMI

Using **HDMI**, the **Ubiquiti UC-Cast-Lite** allows **1080p** video to be displayed on a TV, monitor or projector. This makes the device ideal for presentations, conference rooms or home entertainment. **HDMI** provides easy transmission of video and audio over a single cable, simplifying installation.

Wide USB-C Compatibility

USB-C on the Ubiquiti UC-Cast-Lite provides **high-speed data transfer** and device charging capabilities. **USB-C** allows you to connect modern devices such as laptops, smartphones and tablets. In addition, the device can be powered directly through the port, eliminating the need for an additional power adapter.

Simple Setup with UniFi Connect

The Ubiquiti UC-Cast-Lite is integrated with **UniFi Connect**, which allows **easy configuration** and **management of the device** from within the app. UniFi Connect (a platform for managing network devices in the UniFi ecosystem) allows you to quickly connect devices on your network and optimize settings, simplifying configuration and daily use.
