Price: **1,269.06 zł** gross / 1,031.76 zł net

Manufacturer: UBIQUITI

Referention number: DNXXGNLNRMMNP

Information:

Ubiquiti UCG-MAX-EU is an advanced UniFi controller and gateway for professional networks, combining high performance with straightforward management. Equipped with a quad-core ARM Cortex-A53 1.5 GHz processor, 3 GB RAM and a fast 512 GB NVMe SSD, it ensures smooth operation and efficient storage of configurations. Four 2.5 GbE LAN ports and one 2.5 GbE WAN port provide flexible connectivity, while WAN failover and load balancing support increase reliability. Advanced security features such as firewall, IPS/IDS and content filtering protect the network, and integration with UniFi Cloud and mobile applications makes configuration and remote management easier.

Product features

Height	30 mm
Input voltage	100 V
Output voltage	5 V
LED indicators	Activity
WAN connection	Ethernet (RJ-45)
Firewall security	Yes
Width	141.8 mm
Depth	127.6 mm
Cables included	LAN (RJ-45)
Compliance certificates	CE
Power consumption (max)	16.1 W
Humidity measurement range	5 – 95%
Ethernet LAN (RJ-45) ports	4
IFU / User manual	Yes
Processor family	ARM Cortex

Operating temperature (T-T)	-10 - 40 °C
AC adapter included	Yes
Cabling technology	10/100/1000Base-T(X)
Quality of Service (QoS) support	Yes
VLAN support	Yes
Reset button	Yes
Processor frequency	1500 MHz
Output current	5 A
SSD capacity	512 GB
Internal memory	3072 MB
Bluetooth	Yes
Display type	LCM
Number of processors installed	1
Processor model	Cortex-A53
Processor manufacturer	ARM
Built-in processor	Yes
Product colour	White
Internal memory type	DDR4
DHCP server	Yes
Watch case material	Polycarbonate (PC)
Control panel	Yes
Product weight	519 g

Full product description

Ubiquiti UCG-MAX-EU - Advanced Controller and Gateway for Professional UniFi Networks.

Meet **the Ubiquiti UCG-MAX-EU**, a versatile **UniFi controller and gateway** that combines state-of-the-art network management technologies with exceptional performance. Equipped with a **512 GB NVMe SSD**, four **2.5 GbE LAN** ports and one **2.5 GbE WAN** port, it offers unparalleled configuration and management capabilities for UniFi network devices. It provides stability, speed and security that will meet the expectations of even the most demanding users.

High performance with advanced equipment

The Ubiquiti UCG-MAX-EU is equipped with a **quad-core 1.5GHz ARM Cortex-A53 processor** and **3GB of DDR4 memory**, ensuring smooth operation even in complex network environments. With a **512GB NVMe SSD**, the device offers high-speed processing and configuration storage to eliminate latency and increase network management efficiency.

Versatility with network interfaces

The device has four **2.5 GbE LAN** ports and one **2.5 GbE WAN** port for flexible network configuration. Support for **WAN failover and load balancing** ensures business continuity, even in the event of link problems. It's ideal for business applications where reliability is key.

Advanced security features

The **Ubiquiti Cloud Gateway** offers advanced security features such as **application rule-based firewall**, IPS/IDS threat detection, and content, domain and country filtering. By integrating with UniFi, the controller enables traffic monitoring and access management, enhancing the security of the entire infrastructure.

Intuitive management via UniFi Cloud and mobile apps

With integration with **UniFi Cloud** and mobile apps for **iOS** and **Android**, configuring and managing the device is a breeze. A built-in **0.96" LCM** display provides a quick view of the device's status, and **Bluetooth** support allows for easy pairing and configuration.
