Price: **448.37 zł** gross / 364.53 zł net

Manufacturer: UBIQUITI

Referention number: DNXXGMMJHRMMIH

Information:

Ubiquiti UCG-Ultra EU is a compact, high-performance UniFi network gateway for modern home and business networks. Equipped with a 4-core ARM Cortex-A53 1.5 GHz processor, 3 GB of DDR4 memory and 16 GB of eMMC, it ensures stable operation even under heavy load. It supports redundant WAN connections with failover and load balancing, as well as WiFi QoS, application and device identification, and content and security filtering. Intuitive management via UniFi Network on iOS and Android, together with quick setup via Ethernet and Bluetooth, makes full control of the network easy.

Product features

Regulatory Approvals	CE, FCC, IC
Height	30 mm
Input voltage	100 V
Output voltage	5 V
LED indicators	LAN
WAN connection	Ethernet (RJ-45)
Firewall security	Yes
Width	141.8 mm
Depth	127.6 mm
Cables included	LAN (RJ-45)
Power consumption (max)	6.2 W
Humidity measurement range	5 – 95%
Ethernet LAN (RJ-45) ports	4
IFU / User manual	Yes
Flash memory	16384 MB

Processor family	ARM Cortex
Operating temperature (T-T)	-10 - 40 °C
AC adapter included	Yes
Cabling technology	10/100/1000Base-T(X)
Quality of Service (QoS) support	Yes
VLAN support	Yes
Reset button	Yes
Processor frequency	1500 MHz
Output current	3 A
Ethernet LAN data rates	1000 Mb/s
Internal memory	3072 MB
Number of processors installed	1
Processor model	Cortex-A53
Processor manufacturer	ARM
Built-in processor	Yes
Product colour	White
Internal memory type	DDR4
DHCP server	Yes
Watch case material	Polycarbonate (PC)
Control panel	Yes
Product weight	520 g

Full product description

Meet Ubiquiti UCG-Ultra EU - the latest UniFi network gateway that combines advanced features with performance and reliability!

Ideal for managing modern networks, it offers high-speed WAN and LAN connections, as well as intuitive management via UniFi Network. With its compact design and advanced capabilities, the UCG-Ultra EU is ideal for demanding users.

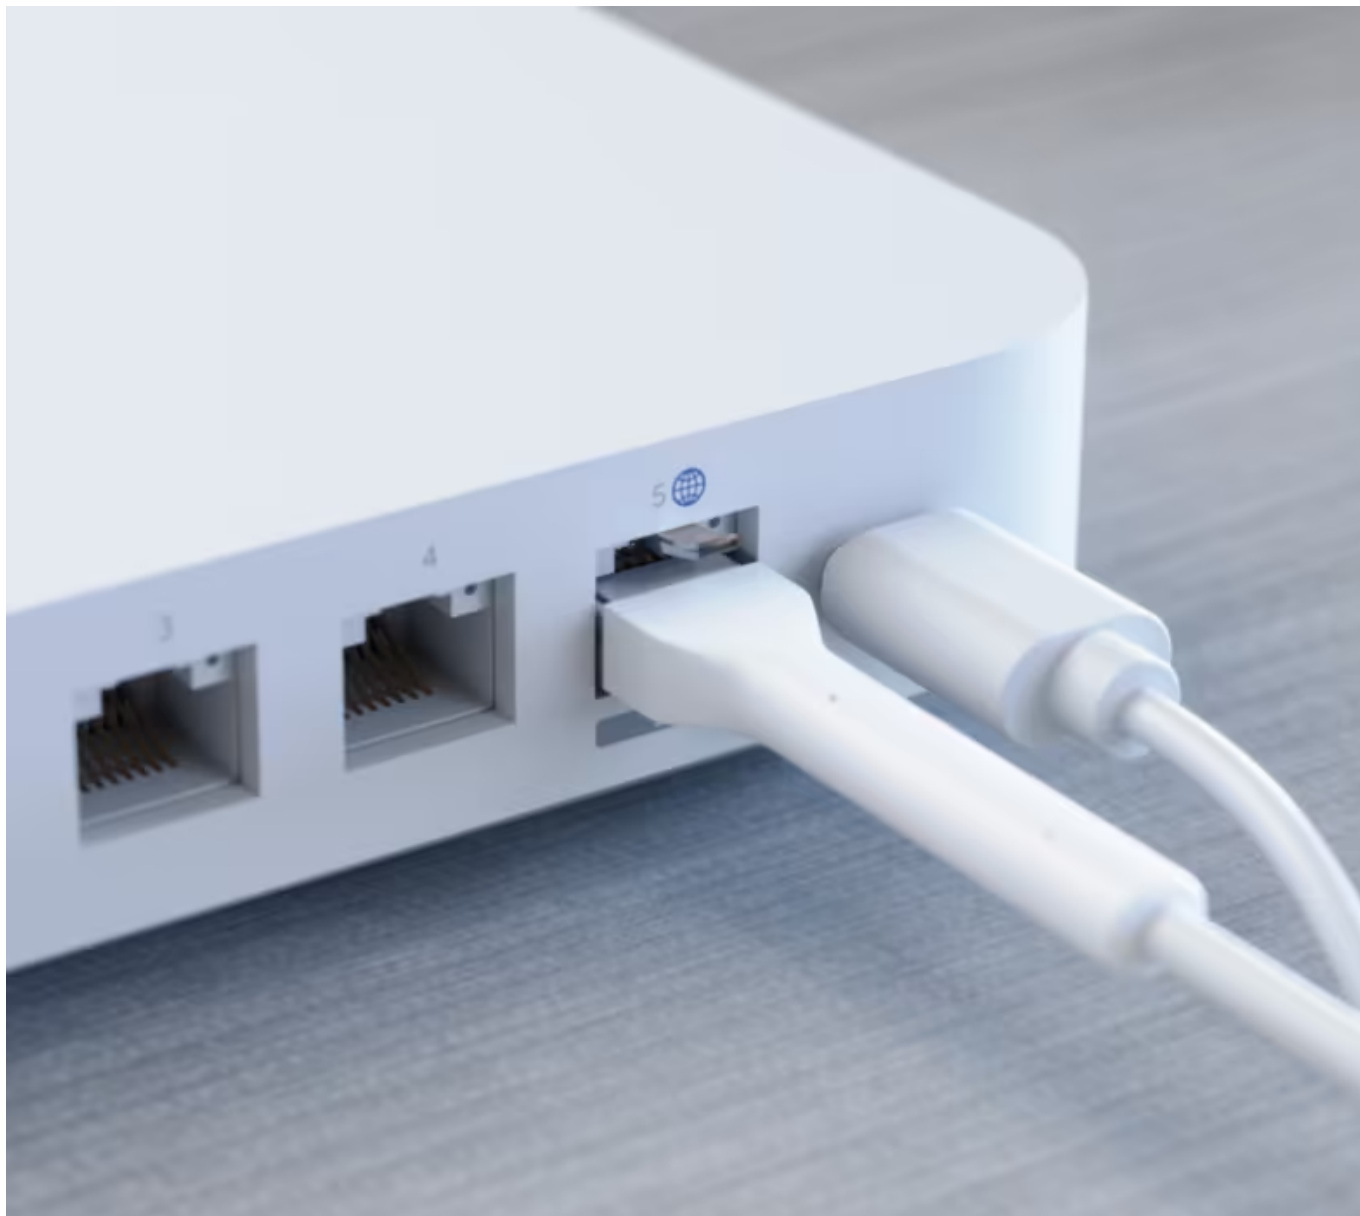

Exceptional performance and reliability

The UniFi gateway is equipped with a quad-core ARM Cortex-A53 processor clocked at 1.5 GHz, 3 GB of DDR4 memory and 16 GB of eMMC memory. This ensures unmatched performance and stability of operation, even under heavy network load. So you can enjoy **smooth operation and fast data transfer**.

Advanced networking features

The gateway supports redundant WAN connections with failover and load balancing to ensure continuous Internet connections. In addition, the UCG-Ultra EU supports WiFi QoS with UniFi access points, application and device identification, and **content and security filtering**. All of this ensures that your network runs smoothly and without disruption.

Easy to use and configure

With Bluetooth support and an Ethernet management interface, configuration and **operation of the gateway is intuitive and simple**. The UniFi Network app, available for iOS and Android, allows you to remotely manage your network from your smartphone, allowing you to quickly respond to changing network needs.
