Price: **1,248.65 zł** gross / 1,015.16 zł net

Manufacturer: UBIQUITI

Referention number: DNXXGHINJLRMMKL

Information:

Ubiquiti UDR7-EU is a high-performance WiFi 7 router designed for demanding homes and businesses. It offers fast and stable connectivity in the 6 GHz, 5 GHz and 2.4 GHz bands, with MU-MIMO 2x2 and Beamforming technologies for better coverage. Equipped with 4 2.5GbE LAN ports and a 10 GbE SFP+ WAN port, it provides high wired throughput, while PoE support makes it easier to connect devices. The built-in UniFi controller allows management of up to 30 devices, support for VPN, L7 firewall, DPI and VLAN. In addition, the microSD slot with a 64 GB card supports local recording in UniFi Protect.

Product features

Product type	Tabletop router
Height	184.1 mm
LED indicators	Status
USB charging port	No
Routing protocols	OSPF
Firewall	Yes
Memory card slot(s)	Yes
Width	110 mm
Depth	110 mm
Security algorithms	PPSK
Maximum Tx power (2.4 GHz)	23
Power management	50 W
Cables included	AC
Compliance certificates	CE
Load balancing system	Yes

Power consumption (typical)	26 W
Humidity measurement range	5 - 95%
Ethernet LAN interface type	2.5 Gigabit Ethernet
Networking standards	IEEE 802.1Q
Ethernet LAN (RJ-45) ports	4
Antenna gain level (max)	7 gain
IFU / User manual	Yes
Filtering	Yes
Operating temperature (T-T)	-10 - 40 °C
Quality of Service (QoS) support	Yes
Reset button	Yes
Processor frequency	1500 MHz
MU-MIMO technology	Yes
Web-based management	Yes
Fiber optic connector	SFP+
VPN server	Identity Endpoint One-Click VPN, Teleport Zero-Configuration VPN, WireGuard, OpenVPN, L2TP
Compatible memory cards	MicroSD (TransFlash)
MAC address table	2000 entries
Ethernet LAN data rates	2500 Mb/s
Power over Ethernet (PoE)	Yes
MIMO	Yes
Maximum coverage	160 m2
Internal memory	3000 MB
Wi-Fi band	Tri-band (2.4 GHz / 5 GHz / 6 GHz)
Wi-Fi standards	802.11a
Bluetooth	Yes
Display type	LCM
Ethernet LAN	Yes
AC input frequency	50 Hz
AC input voltage	100 V
Power over Ethernet (PoE) voltage	57 V
Processor architecture	ARM Cortex-A53
SIM card slot	No
Top Wi-Fi standard	Wi-Fi 7 (802.11be)
Processor cores	4
Power source type	AC
Built-in processor	Yes
Antenna design	Internal
Product colour	White
WLAN data transfer rate (first band)	688 Mb/s
WLAN data transfer rate (second band)	4300 Mb/s
Ethernet WAN	Yes
Policy-based routing	Yes
Multicast support	Yes
WLAN data transfer rate (third band)	5700 Mb/s
WLAN data transfer rate (max)	5700 Mb/s

Number of simultaneously connected devices (max)	300
Built-in display	Yes
DHCP server	Yes
3G/4G USB modem compatibility	No
DSL WAN	No
Watch case material	Polycarbonate (PC)
Product weight	1100 g

Full product description

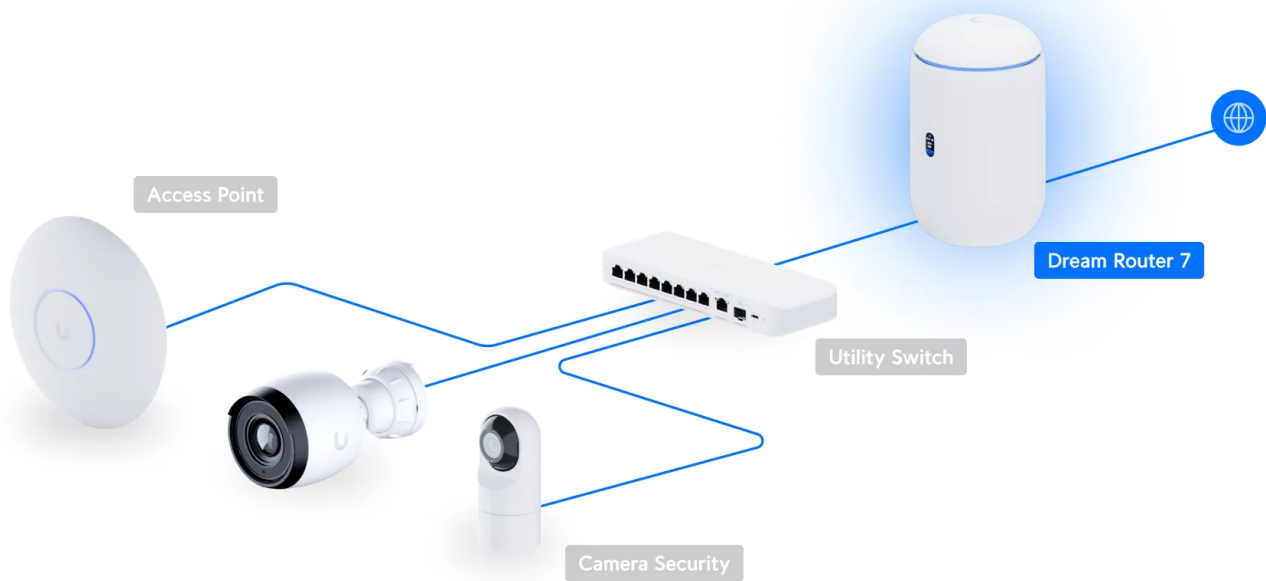

Ubiquiti UDR7-EU - WiFi Router 7 with 4x 2.5GbE and SFP.

The Ubiquiti UDR7-EU is an advanced WiFi 7 router that offers high-speed wireless connectivity and high network performance. With **four 2.5GbE LAN ports** and **one SFP 10 GbE WAN port**, it provides gigabit speeds for the most demanding users. The built-in UniFi controller allows easy network management and **integration with other Ubiquiti devices**.

WiFi 7 technology and wide bandwidth

The router supports **WiFi 7 (802.11be)**, which means faster speeds, lower latency and a more stable connection. It operates in the **6 GHz, 5 GHz and 2.4 GHz bands**, offering up to **5.7 Gbps in 6 GHz, 4.3 Gbps in 5 GHz** and **688 Mbps in 2.4 GHz**. **MU-MIMO 2x2** and **Beamforming** provide better coverage and a stable connection even in crowded networks.

Advanced wired network

The Ubiquiti UDR7-EU is **equipped with 4 2.5GbE LAN ports** and **1 SFP 10 GbE WAN port** for efficient wired connections. **PoE** support allows you to power network devices without additional power cables. With **Gigabit Ethernet**, the router is great for businesses, offices and homes with a large number of connected devices.

UniFi controller and network management

With a **built-in UniFi controller**, the UDR7-EU allows **management of up to 30 devices** and full control of the network. It supports **VPN**, **Layer 7 firewall**, **DPI** and **VLAN segmentation** for enhanced security and configuration flexibility. The ability to integrate with **UniFi Cloud Key** and **UniFi Protect** makes the router ready for any network.

Built-in microSD slot and NVR support

The router comes **pre-installed** with a **64GB microSD card** for local storage of **UniFi Protect** video recordings. Support for microSD memory expansion allows you to increase the available space for surveillance footage. This solution is ideal for those who need **secure data storage without using the cloud**.
