Full product description

A healthy smile in your home

Discover a solution for **home oral hygiene**. This **ultrasonic scaler** effectively helps remove **tartar**, plaque and stubborn stains. With a built-in **camera** and connection to an app, you gain full control over the cleaning process. This supports healthy teeth, reducing the need for frequent office visits.

Key Advantages

- **Tartar Removal Support:** Helps remove hard plaque at home on a regular basis.
- **Stain Reduction:** Makes it easier to fight superficial stains from coffee, tea or other products.
- **Visual control:** Built-in camera and app allow you to monitor the cleaned areas in real time.
- **Customization:** 5 intensity levels allow you to customize your work to your sensitivity.
- **Hygienic use:** Automatic UV sterilization of the tip keeps the device safe and clean.

Control of the cleaning process

The device is designed for convenient use in your own bathroom. **The ergonomic design** makes it easy to hold, and **the built-in camera** transmits the image directly to the mobile app. Follow the cleaning process in real time on your smartphone screen to reach every nook and cranny and evaluate the results of your work.

Łatwe czyszczenie zębów w domu

Dedicated mobile application

Connecting the scaler to your phone is quick and intuitive. A dedicated **mobile app** (compatible with popular systems) allows not only live viewing, but also helps you monitor the condition of your teeth. It's a smart tool that guides you through the process of taking care of your **oral health** and allows you to better understand its needs.

+ Natychmiastowe parowanie aplikacji

Removal of scale and deposits

The scaler uses high-frequency **ultrasonic technology** to break up hard deposits. It effectively deals with **tartar** and bacterial plaque. With the in-app camera view, you can watch the plaque removal process live and precisely direct the device's tip.

Vibration technology

The device works by means of ultrasonic vibrations of sufficient power. Importantly, **the sound and vibration** become fully active only after the tip comes into contact with the hard surface of the tooth. This makes the work effective where it is needed, while offering greater comfort.

3W Ultrasoniczna moc

Protecting delicate gums

The device has an intelligent surface recognition system. **The vibration activates** upon contact with the teeth, enabling effective tartar removal. On the other hand, after contact with soft tissues, such as gums, the scaler automatically stops intensive work. This solution helps protect sensitive areas of the mouth from irritation.

Inteligentne wykrywanie miękkich i twardych obszarów w jamie ustnej

Kontakt z zębami

Match the intensity

The scaler offers **5 levels of working intensity** (from Soft to Super), visible on an easy-to-read indicator. This allows you to fine-tune the action to your individual sensitivity of teeth and the thickness of accumulated plaque. You can start with the softer modes and gradually increase the power as needed.

Sterilization with UV light

A high level of hygiene is key. The scaler is equipped with **a UV sterilization system**. This function activates automatically when the device is plugged in for charging. Ultraviolet light helps eliminate **up to 99.9% of bacteria** and microorganisms accumulated on the tip. This takes care of the cleanliness of the accessories and your safety.

Dezynfekcja Światłem Ultrafioletowym zabija aż do 99% bakterii.

Rich set of accessories

In the set you get a wide range of accessories that support **comprehensive care**. The set includes different types of tips, a dental mirror and other tools that make it easy to reach hard-to-reach places and clean with precision. Everything you need to take care of your oral hygiene.

Who is this product for?

- For people who care about daily thorough oral hygiene.
- For people who drink a lot of coffee, tea or smoke tobacco.
- For people with a tendency to build up tartar quickly.
- For those who want to supplement professional hygiene in the office.
- For users who value technology and control through a camera and app.
