Price: **87.95 zł** gross / 71.50 zł net

Manufacturer: UBIQUITI

Referention number: DNXXGHOLERMLPP

Information:

Ubiquiti UISP-Connector-GND is a professional shielded RJ45 connector with a grounding wire, designed for demanding network installations. It provides effective protection against electromagnetic interference and surges, increasing the stability and reliability of Ethernet connections. It is compatible with UISP Cable Pro and ToughCable, and the simple solder-free installation speeds up setup. The robust construction made of copper and PVC, together with the black cover, guarantees durability in both indoor and outdoor applications. The set contains 20 pieces, making it a practical choice for professional projects.

Product features

Conductor material	Copper
AWG wire size	22
Cable length	1 m
Sheath material	Polyvinyl chloride (PVC)
Product colour	Black
Connector 1 form factor	Straight
Connector 1 gender	Male
Cable shape	Round

Full product description

Professional RJ45 connector with shielding and grounding

Get the highest quality and reliability thanks to **Ubiquiti UISP-Connector-GND** – a solution designed for the most demanding network installations. This is not just an ordinary RJ45 connector – it is the key to protecting your network against surges and interference. Excellent **shielding and a dedicated grounding wire** make this product indispensable in professional Ethernet systems, from routers to PoE switches. Trust the Ubiquiti brand and ensure your infrastructure remains stable for years to come!

High-grade shielding and grounding

Ubiquiti UISP-Connector-GND provides excellent shielding, minimising the risk of electromagnetic interference. Thanks to the special grounding wire, the device effectively protects your network against surges and **surge protection** becomes simple and effective. It is the ideal choice for installations where reliability and stability of Ethernet connections are required.

Ease of installation and compatibility

You do not have to worry about complicated installation – the **RJ45 plug** from the UISP series guarantees simple and safe connection. The product is compatible with **UISP Cable Pro** and **ToughCable** cables, making it a versatile solution for Ubiquiti Networks systems. The high-quality workmanship eliminates the need for soldering, which speeds up the installation process.

Durable construction and premium quality

The connector is made from the highest quality materials, such as **copper and PVC**, which guarantees its longevity and resistance to mechanical damage. The black PVC cover protects against external factors, making it ideal for both indoor and outdoor installations. The set includes as many as **20 connectors**, making this purchase extremely cost-effective. This allows you to stock up on a larger quantity of net products that will be ready to use in various projects.
