Price: **1,755.79 zł** gross / 1,427.47 zł net

Manufacturer: UBIQUITI

Referention number: DNXXGKQQLRMNIP

Product features

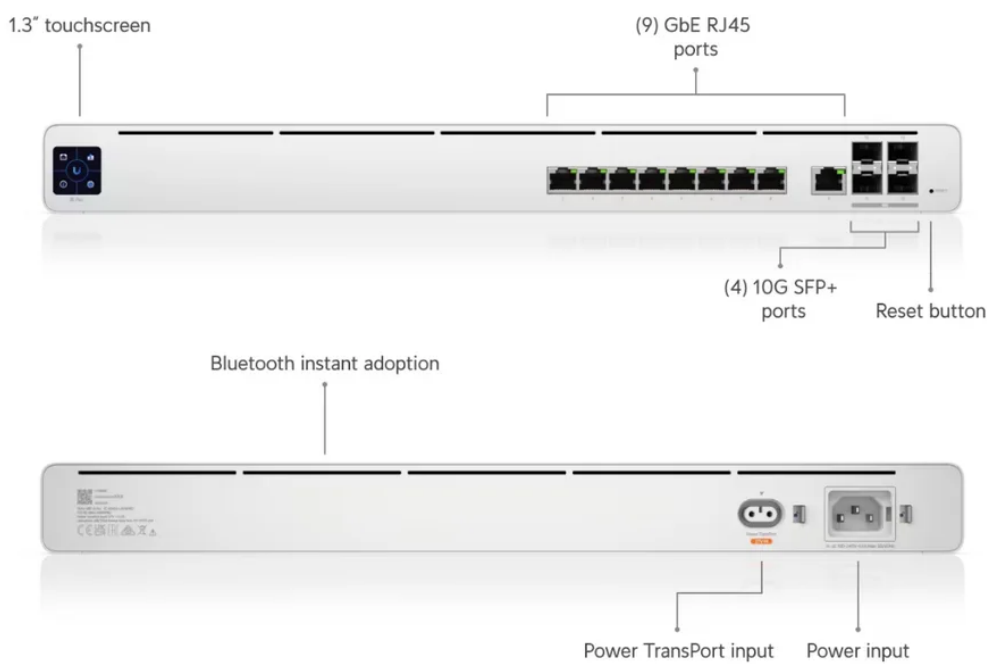

Height	43.7 mm
LED indicators	Activity
Firewall	Yes
Width	442.4 mm
Depth	200 mm
Power management	60 W
Input current	1.5 A
Compliance certificates	CE
Power consumption (max)	50 W
Humidity measurement range	5 - 95%
Ethernet LAN (RJ-45) ports	8
Performance	9.5 Gb/s
Operating temperature (T-T)	-10 - 50 °C
AC adapter included	Yes
Ethernet interface type	Gigabit Ethernet
Reset button	Yes
SFP+ module slots quantity	4
Processor frequency	1700 MHz
Web-based management	Yes
Display diagonal	1.3 "
Traffic shaping	Yes
Internal memory	16 GB

Internal memory	4096 MB
Display type	LCM
WAN ports quantity	1
AC input frequency	50 Hz
AC input voltage	100 V
SIM card slot	No
Processor model	ARM Cortex-A57
Processor manufacturer	ARM
Power source type	AC
Built-in processor	Yes
Storage media	eMMC
Product colour	Stainless steel
Internal memory type	DDR4
Network address translation (NAT)	Yes
Ethernet WAN	Yes
Built-in display	Yes
SFP WAN	No
3G/4G USB modem compatibility	No
DSL WAN	No
Watch case material	ABS
Product weight	3300 g

Full product description

Ubiquiti UISP-R-Pro multi-WAN 10GbE router for ISP applications

The Ubiquiti UISP-R-Pro is a multi-WAN 10GbE router designed for ISP applications. It is a powerful and versatile device that can provide high-speed connectivity, advanced routing and network management.

Key features of Ubiquiti UISP Router Professional

1. 9 GbE RJ45 ports
2. 4 10G SFP ports
3. Integrated Layer 2 switch
4. NAT throughput of up to 9,500 Mbps
5. Traffic shaping and automatic client suspend function
6. Firewall and OSPF routing
7. Additional Power TransPort input for DC redundancy

High-speed connectivity

The Ubiquiti UISP-R-Pro has (9) GbE RJ45 ports and (4) 10G SFP ports for high-speed connectivity. It can support NAT throughput of up to 9,500 Mbps and up to 2,000 simultaneous sessions. It can also support multiple WAN connections, load balancing, failover, and bonding.

Advanced routing

The Ubiquiti UISP-R-Pro has an integrated Layer 2/3 switch that can support VLANs, QoS, IGMP snooping and LACP. It can also support OSPF routing, firewall, traffic shaping, IP accounting and VPN. It can provide network security and optimization for ISP applications.

Easy setup and management

The Ubiquiti UISP-R-Pro has a 1.3-inch color LCM touchscreen that can display device status and configuration options. It also has an additional Power TransPort input for DC redundancy. It can be easily configured and managed using the UISP mobile app or the UISP platform. The UISP platform is a centralized network management system that can monitor and control all Ubiquiti devices on the network.
