Price: **2,342.26 zł** gross / 1,904.28 zł net

Manufacturer: UBIQUITI

Referention number: DNXGGOQJHRMMMH

Information:

Ubiquiti UNAS-Pro is a professional NAS server for rack mounting, created for businesses and demanding users. It supports up to 7 HDD/SSD drives, offers a fast 10 GbE SFP+ connection and 1 GbE RJ45, and performance is ensured by a quad-core ARM Cortex-A57 1.7 GHz processor and 8 GB RAM. Integration with UniFi Drive makes management from anywhere easy, while the 1.3-inch touchscreen and Bluetooth 4.1 allow convenient configuration and status monitoring. The device supports redundant USP-RPS power supply, has ESD/EMP protection and a robust SGCC steel enclosure. Its compact 2U design, low power consumption and high reliability make it an excellent choice for secure, fast data storage.

Product features

Height	87 mm
LED indicators	Status
USB charging port	No
Storage drives installed	No
Power supply unit (PSU) capacity	200 W
Installed storage drive type	No
Supported storage drive types	HDD & SSD
Backup function	Yes
Width	442 mm
Depth	325 mm
Power supply location	Built-in
Cables included	Power
Compliance certificates	CE
Power consumption (max)	160 W
Humidity measurement range	5 - 95%

Cooling type	Active
Case design	Rack (2U)
RAID support	Yes
Ethernet LAN (RJ-45) ports	1
Processor family	Cortex-A
Operating temperature (T-T)	-5 - 40 °C
Rack mount kit	Yes
Reset button	Yes
Processor frequency	1.7 GHz
Fiber optic connector	SFP+
Fiber ports quantity	1
Display type	LCM
Ethernet LAN	Yes
AC input frequency	50 Hz
AC input voltage	100 V
Processor architecture	ARM Cortex-A57
Processor cores	4
Processor model	Cortex-A57
Processor manufacturer	ARM
Product colour	Grey
Number of storage drives supported	7
Built-in display	Yes
Internal memory	8 GB
Watch case material	Steel
Redundant power supply (RPS) support	Yes
Type	NAS
Product weight	9200 g

Full product description

Ubiquiti UNAS-Pro - Professional NAS server for your network

Ubiquiti UNAS-Pro is a NAS server designed for businesses and users who need scalability, security and speed. With support for up to 7 HDD/SSD drives, a 10 GbE SFP+ port and a compact 2U enclosure, this product is ideal for rack mounting and will meet every challenge.

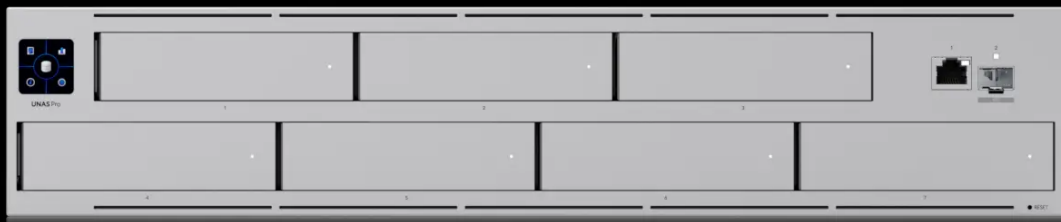

Professional performance

UNAS-Pro is equipped with a quad-core **ARM Cortex-A57 1.7 GHz** processor and **8 GB of RAM**, which ensures smooth operation even under heavy loads. The **1x GbE RJ45** and **1x 10 GbE SFP+** ports guarantee ultra-fast data transmission, ideal for working with large files. The maximum **drive load of 135W** allows for safe and efficient data storage.

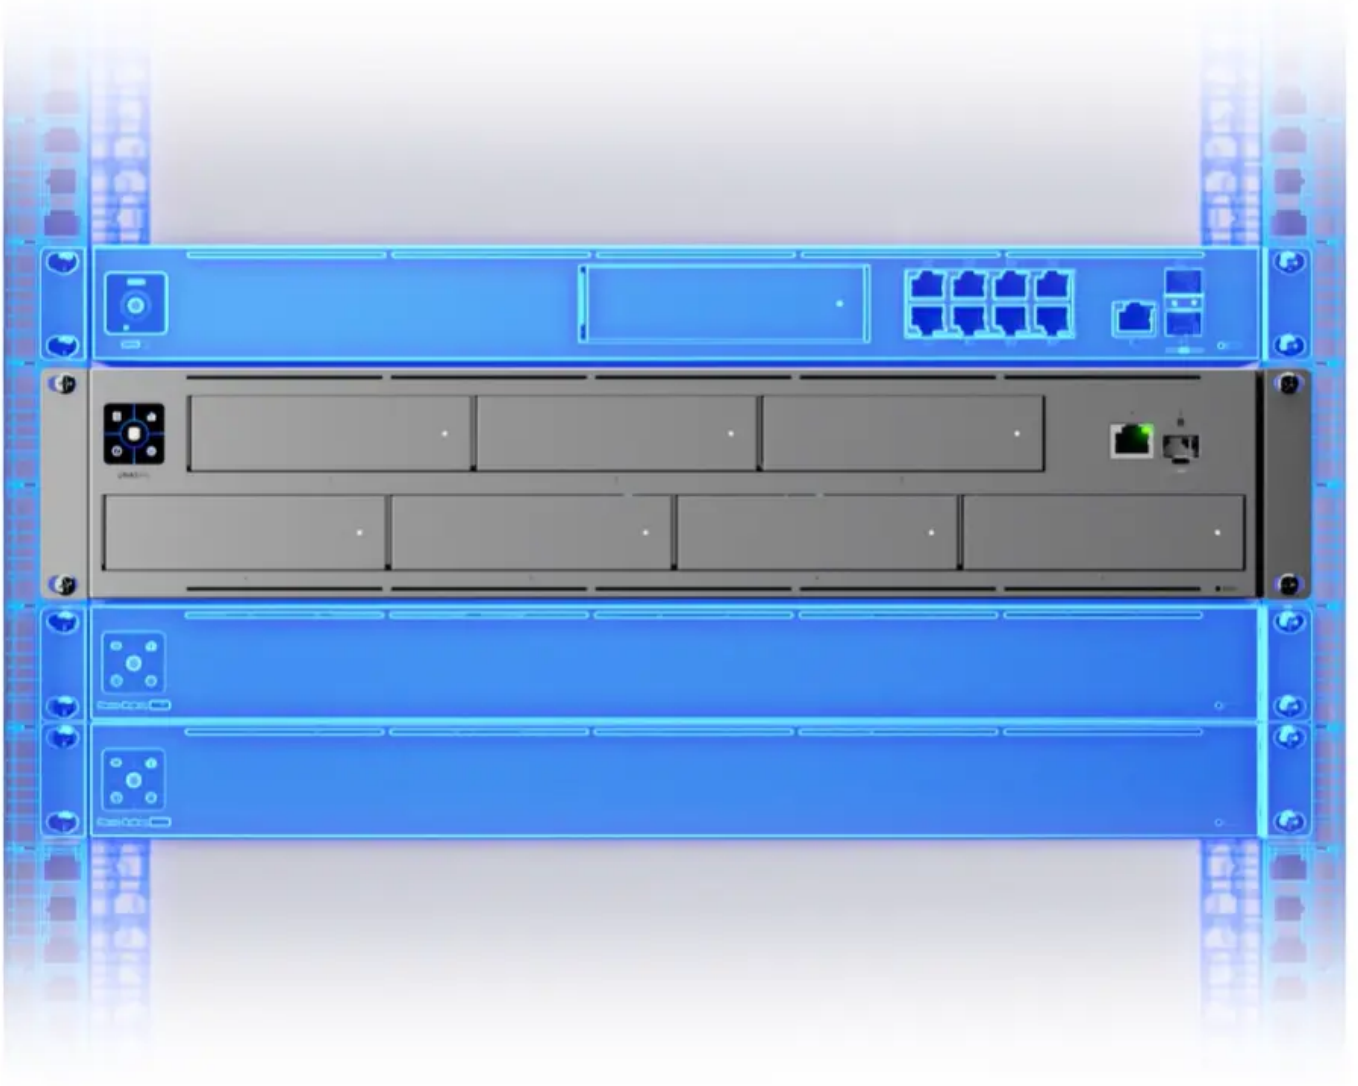

Advanced management and flexibility

Thanks to integration with the UniFi Drive ecosystem, managing the server is extremely intuitive and accessible from anywhere. The built-in **1.3-inch touchscreen** provides a quick view of key parameters such as system and drive status. Support for **Bluetooth 4.1** allows for easy configuration and monitoring of the device.

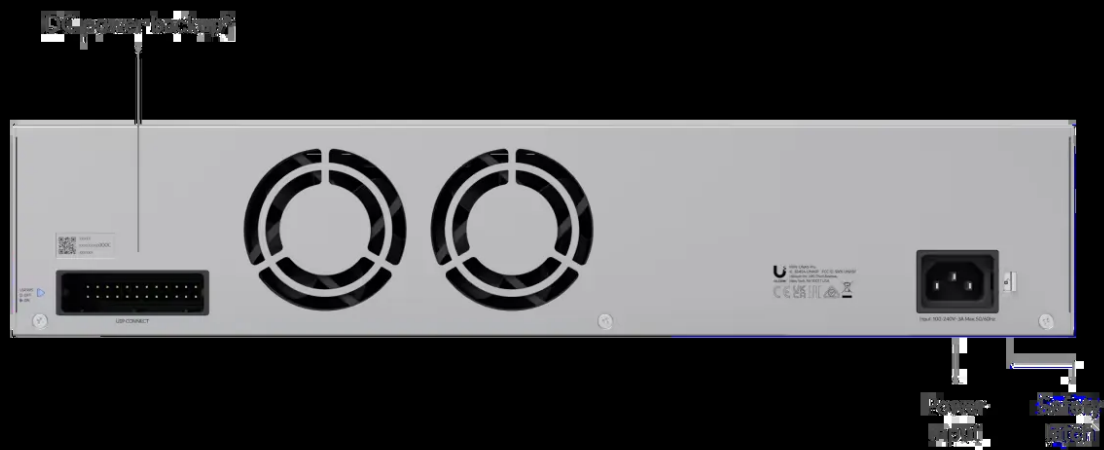

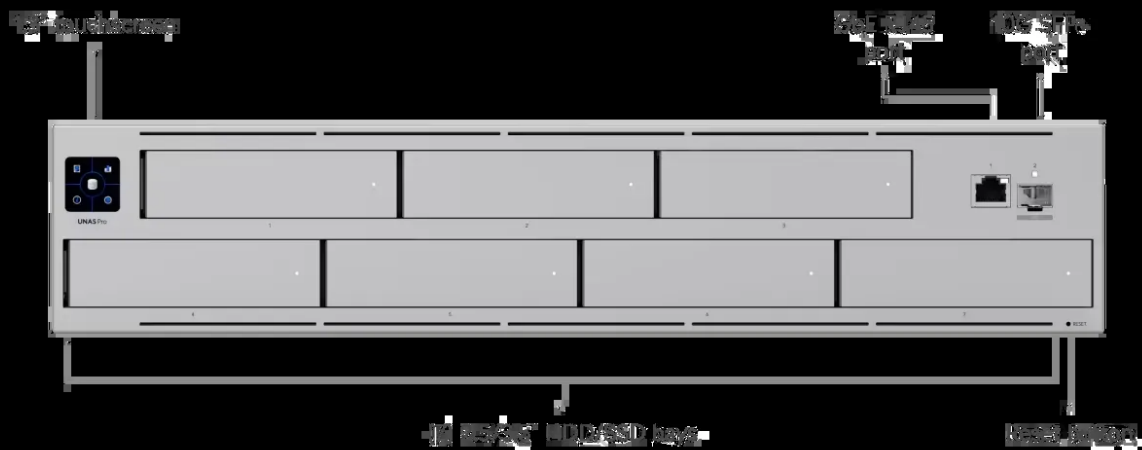

Security and reliability

UNAS-Pro offers support for **USP-RPS redundant power supply**, which minimises the risk of downtime. Thanks to **ESD/EMP protection** (± 12 kV air, ± 8 kV contact), the device is resistant to electrostatic discharge. The enclosure made of durable SGCC steel ensures reliability and protection in demanding conditions.

Easy installation and compact design

The compact **2U design** with dimensions of **442 x 325 x 87 mm** means the device fits perfectly into standard rack cabinets. The low **weight of 9.2 kg** (without brackets) makes installation and transport easier. Thanks to its energy efficiency class and maximum power consumption of 160W, the **server is also energy efficient**.

Regular Unified Power Backup
