Information:

UniFi Protect Pro is an enterprise network video recorder for expanding the UniFi Protect surveillance system. It supports recording from up to 50 Full HD cameras or 15 4K cameras for 50 days. It accommodates up to 7 SSD/HDD drives in a RAID 1, RAID 5 or RAID 10 array, ensuring secure and reliable storage of recordings. It is equipped with a 10G SFP+ port, a gigabit RJ-45 port, a 1.3-inch touchscreen and support for USP-RPS redundant power supply. The compact 2U rack-mount chassis makes installation and maintenance easy, and UniFi OS Console enables convenient management, live viewing and playback of recordings.

Product features

Height	87 mm
RAID levels	1
LED indicators	Yes
Width	442 mm
Depth	325 mm
Power management	200 W
Rack mounting	Yes
Power consumption (max)	165 W
Humidity measurement range	5 - 95%
RAID support	Yes
Ethernet LAN (RJ-45) ports	1
Operating temperature (T-T)	-5 - 40 °C
Rack capacity	2U
Display diagonal	1.3 "
Wi-Fi	No

AC input frequency	50 Hz
HDD 2 capacity	0 GB
Number of HDDs supported	7
Product colour	Grey
Built-in display	Yes
Product weight	9200 g

Full product description

UniFi Protect Pro Network Video Recorder

The **Ubiquiti UNVR-Pro** enterprise-class network video recorder can store footage from 50 Full HD or **15 4K** cameras for **50 days**.

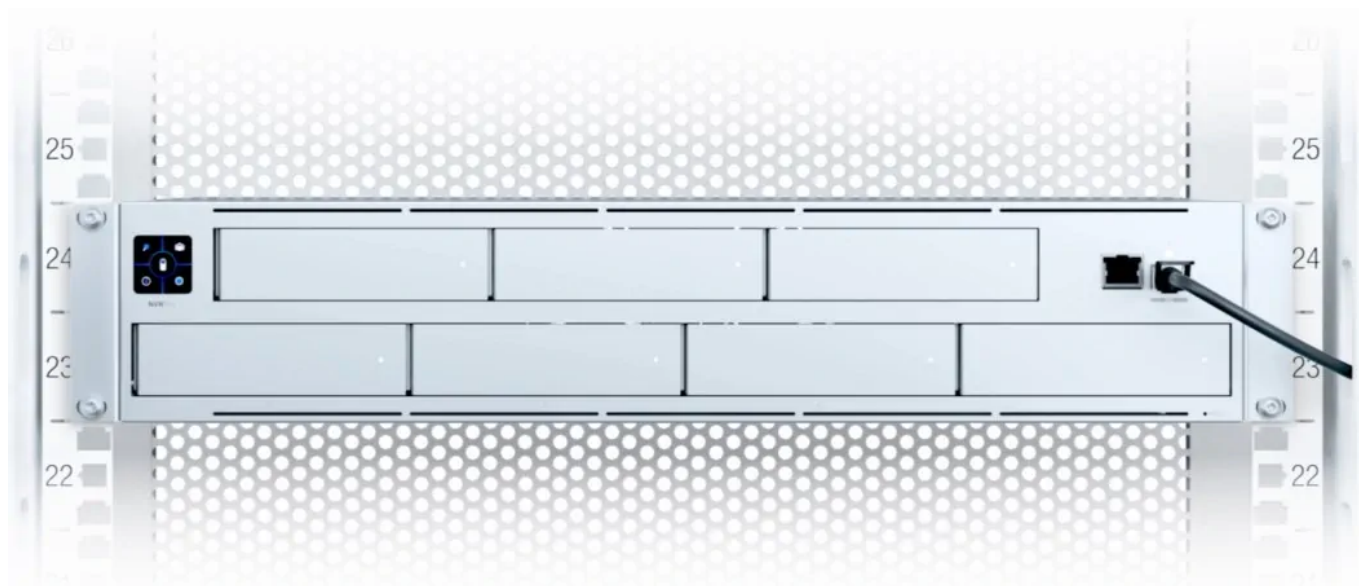

Secure data storage and easy maintenance

The potential of the **UniFi Protect Network Video Recorder Pro** allows you to greatly expand the built-in **UniFi Protect** system. The UNVR-Pro can accommodate up to seven SSD/HDD drives in a robust **RAID 1, RAID 5 or RAID 10** array for ample video archive storage. A 1.3" front-facing **touchscreen display** provides quick access to operational information and previews.

High data transfer rate

High availability of the **UniFi Protect Network Video Recorder Pro** is ensured with a high-speed **10G SFP** port and a gigabit RJ45 LAN port. In the event of a power outage or power supply failure, a connector for the **UniFi SmartPower** Redundant Power System (**USP-RPS**) is provided. Ubiquiti engineers managed to fit the video recorder with up to **7 storage units** in a compact chassis just 2U high, which can be mounted in a **19" rack**.

Many features of UniFi OS Console software

With UniFi OS Console , you can manage **the Ubiquiti UNVR-Pro**, as well as view recorded video and preview connected cameras in real time. But that's not all the features of UniFi OS Console; it can support thousands of UniFi access points, map networks, quickly manage system traffic and add new UniFi **access points (Access point)**. Use the UniFi access point features to detect and eliminate nearby interference, analyze radio frequencies, select the optimal access point location and configure settings.

Main features

- 7 drive bays - 2.5"/3.5
- 1 10G SFP port
- 1 Gigabit RJ-45 port
- 2U rack-mountable (mount included)
- Plug-and-Play UniFi Protect system with NVR
- Automated secure configuration - RAID 1, RAID 5 or RAID 10
- USP-RPS support for power supply failover
