Full product description

Discover the modern way to relieve pain! Introducing the Extralink Vital Basic rechargeable TENS/EMS electrical stimulator

Discover a revolutionary way to relieve pain and fatigue with the state-of-the-art **rechargeable TENS/EMS electrical stimulator from Extralink!** Equipped with 4 electrodes and a bidirectional muscle stimulation system, the stimulator offers up to 28 different modes to suit your individual needs. With it, you can easily relieve neck, shoulder, back, ankle, wrist, elbow pain, as well as joint ailments and sports injuries. The large screen allows you to use it comfortably, and the simple operation makes it a pleasure to use. Check out now why an electric muscle stimulator can be the best partner in your life!

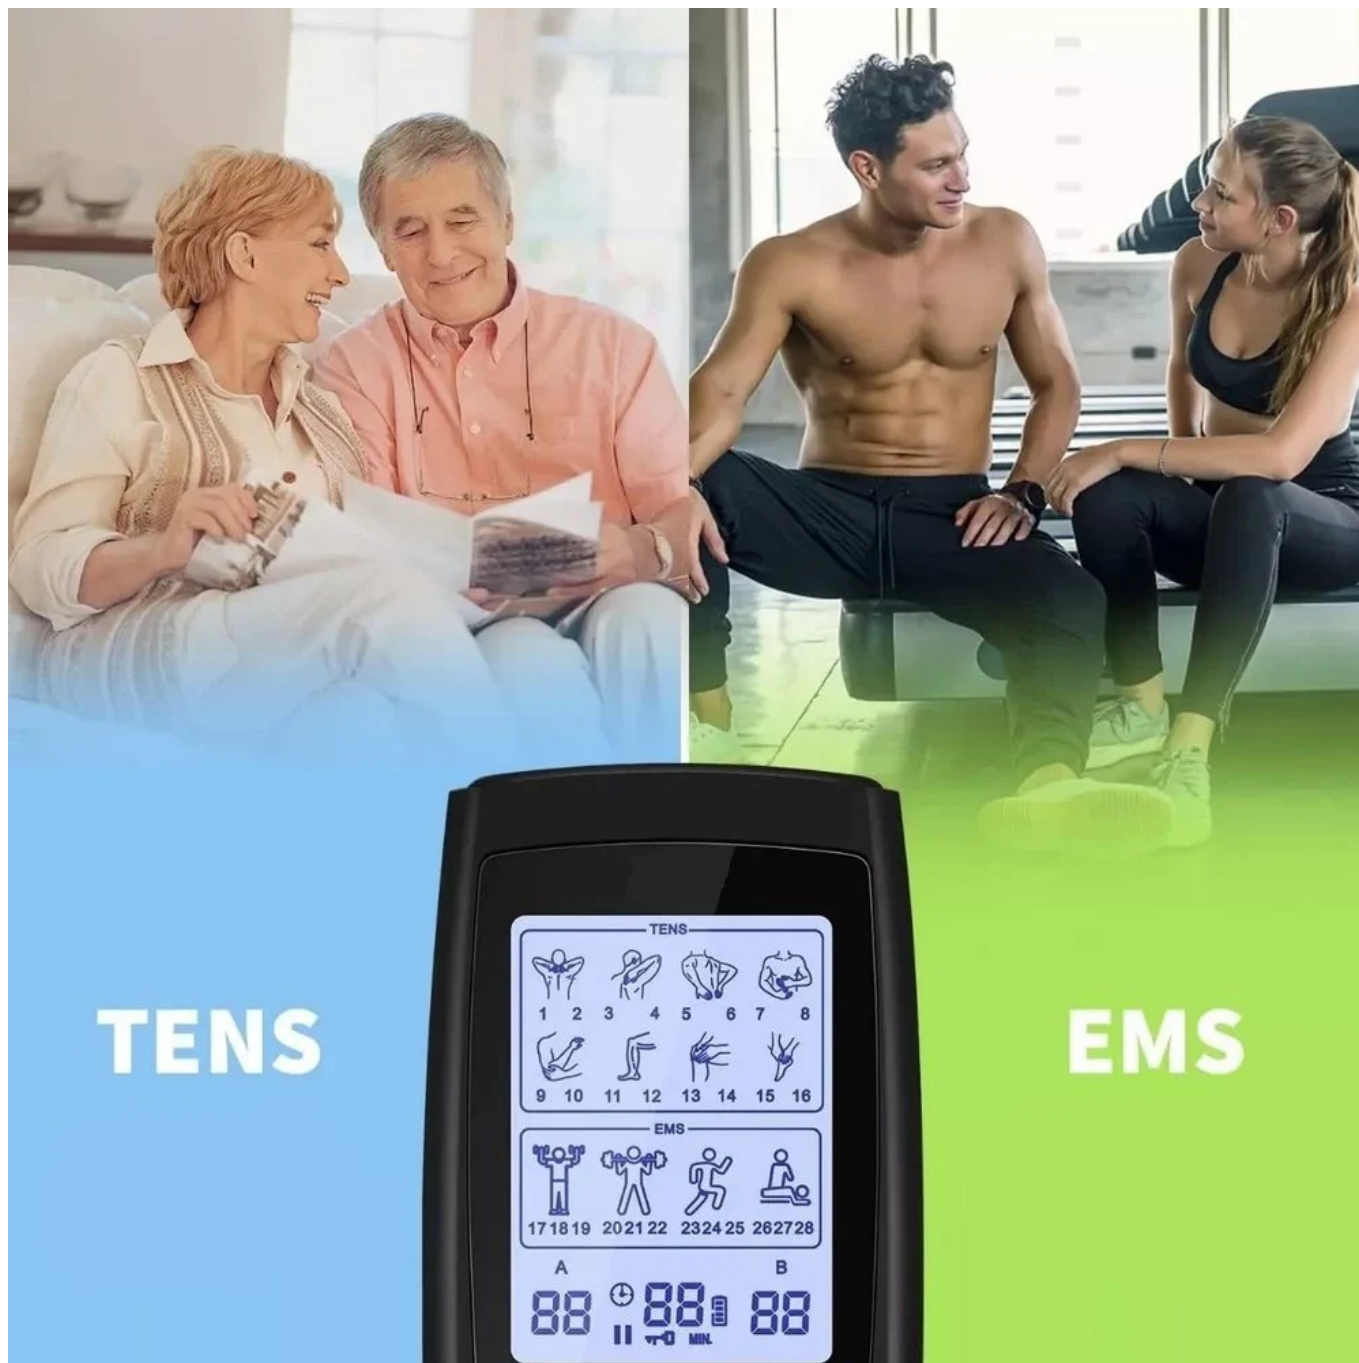

TENS/EMS muscle stimulation

The innovative pulsed electrical stimulator is a combination of two advanced technologies: **EMS (electrical neuromuscular stimulator)** and **TENS (transcutaneous electrical nerve stimulation)**. These advanced devices are known for their effectiveness in managing pain, providing massage, inducing relaxation and acting as electrical muscle stimulators. With them, you can enjoy a comprehensive therapeutic experience in a convenient and effective way.

28 modes 40 levels of intensity

The TENS/EMS muscle stimulator has **28 different pre-programmed TENS and EMS stimulation modes and 40 intensity levels** that can effectively relieve pain and fatigue, promote blood circulation and metabolism, or stimulate muscles to improve the condition of the head, shoulders, waist, back, muscle performance of various parts of the body such as buttocks and legs.

Independent mode control

With the ability to set different intensity levels for each channel, the Extralink Vital Basic stimulator allows you to customize it to your needs. The functions operate independently, allowing you to use the device in different modes with either one person or two different people. **An adjustable timer, allowing you to set massage times from 10 to 60 minutes**, provides additional flexibility in use. The stimulator not only provides pain relief, but also stimulates muscles and improves their condition. It is perfect for use in the office, car or while traveling, providing you with relaxation and comfort wherever you are.

Rechargeable and easy to carry

The Extralink Vital Basic Electric Stimulator allows for 4 to 6 stimulation sessions on a single charge, providing unparalleled convenience and practicality. Its small size, comparable to a cell phone, makes it easy to carry and use anywhere and anytime, ensuring relaxation no matter what the circumstances. Charging is simple and convenient thanks to its ability to connect to a wall charger, power bank or laptop USB port. In addition, the stimulator comes with a practical case for easy storage and transportation, giving you complete mobility and flexibility.

The perfect gift

Extralink Vital Basic is an ideal gift for loved ones, such as family or friends. It is extremely practical and personal fitness equipment, perfectly suited for today's busy lifestyles. Thanks to its compact size, you can easily put it in your bag or backpack, saving space and transportation costs. It's the perfect way to express your concern and care for the health of your loved ones, offering them the opportunity to relax and exercise anywhere, anytime.
